CHAIRPERSON'S REPORT

Dear Shareholders,

On behalf of the Board of Directors of Hayah Insurance Company P.J.S.C., I am pleased to present to you our annual report for the year ended 31 December 2025.

The year 2025 was a year of consolidation and capability building for the Company. While net profit for the year stood at AED 1.7 million compared to AED 4.6 million in the previous year, the underlying performance reflects meaningful progress in expanding our business and strengthening our operational foundations.

Insurance revenue increased to AED 127.5 million compared to AED 94.2 million in 2024, while the insurance service result improved to AED 7.5 million. At the same time, the Company significantly strengthened its balance sheet, with total assets increasing to AED 279.8 million.

GOVERNANCE AND INSTITUTIONAL DISCIPLINE

The Board of Directors continued to prioritize strong governance and institutional discipline as fundamental pillars of the Company's strategy.

During the year, we further strengthened our governance frameworks, enhanced risk management processes, and reinforced compliance and internal control systems. These efforts are designed to ensure that the Company operates with the highest standards of transparency, accountability and regulatory alignment.

By embedding stronger institutional processes and governance discipline across the organization, we are building a resilient platform capable of supporting sustainable growth.

WAY FORWARD

Looking ahead, the Company remains focused on disciplined expansion while continuing to strengthen its internal capabilities and operational platform. Our strategic priorities include expanding our digital capabilities and customer platforms, enhancing automation and operational efficiency, and building a more scalable and technology-enabled operating model.

We believe these initiatives will position the Company to improve profitability, support sustainable growth, and deliver long-term value to our shareholders.

ACKNOWLEDGEMENTS

I would like to extend our deepest gratitude to the rulers of the United Arab Emirates for their visionary leadership and continued support. We also thank the Capital Markets Authority and the Central Bank of the UAE for their invaluable guidance and oversight.

Additionally, I would like to recognize and thank our management team and employees for their hard work, dedication, and commitment throughout the year.

Finally, to our shareholders, I express my sincere appreciation for your unwavering confidence and support. We remain dedicated to delivering consistent, long-term growth and value.

Sincerely,

Salama Amer Omar Saleh

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Hayah Insurance Company P.J.S.C.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Hayah Insurance Company P.J.S.C. (the “Company”), which comprise the statement of financial position as at 31 December 2025, and the statement of profit or loss, statement of other comprehensive income, statement of changes in shareholders’ equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with IFRS accounting standards as issued by International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with *International Ethics Standards Board for Accountant’s Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with the requirements of IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the Company for the year ended 31 December 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Hayah Insurance Company P.J.S.C.

Report on the Audit of the Financial Statements (continued)

Key Audit Matters (continued)

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
Valuation of Insurance Contract Liabilities and Reinsurance Contract Assets	
As at 31 December 2025, the Company's insurance contract liabilities and reinsurance contract assets are valued at AED 77,064 thousands and AED 64,177 thousands, respectively. (Refer note 9). Valuation of insurance contract liabilities and reinsurance contract assets involves significant judgements and estimates, particularly with respect to the eligibility of measurement model and estimation of the present value of future cash flows. These cash flows primarily include expected premium receipts, expected ultimate cost of claims and allocation of insurance acquisition cash flows, which are within the contract boundaries. The calculation for these liabilities and assets includes significant estimation and involvement of actuarial experts in order to ensure the appropriateness of methodology, assumptions and data used to determine the estimated future cash flows and the appropriateness of the discount rates used to determine the present value of future cash flows. As a result of the above factors, we consider valuation of insurance contract liabilities and reinsurance contract assets as a key audit matter.	We performed the following procedures in conjunction with our actuarial specialists: - Understood and evaluated the process, the design and implementation of controls in place to determine valuation of Insurance contract liabilities and Reinsurance contract assets; - Assessed the competence, capabilities and objectivity of the management's appointed actuary; - Tested the completeness, and on sample basis, the accuracy and relevance of data used to determine future cashflows; - Evaluated the appropriateness of the methodology, significant assumptions including risk adjustment, PAA eligibility assessment, discount rates and expenses included within the fulfilment cashflows. This included consideration of the reasonableness of assumptions against actual historical experience and the appropriateness of any judgments applied; - Independently reperformed the calculation to assess the mathematical accuracy of the Insurance contract liabilities and Reinsurance Contract Assets on selected classes of business, particularly focusing on largest and most uncertain reserves; - Evaluated and tested the calculation of the allowance for expected credit loss allowance including the data, key assumptions and judgments used; and - Assessed the adequacy of disclosures included in the financial statements against the requirements of IFRS Accounting Standards.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Hayah Insurance Company P.J.S.C.

Report on the Audit of the Financial Statements (continued)

Other Information

Management and directors are responsible for the other information. The other information comprises the information included in the Chairperson's report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the IASB and their preparation in compliance with the UAE Federal Decree Law No. (32) of 2021 (as amended), and UAE Federal Law No. (6) of 2025 and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Hayah Insurance Company P.J.S.C.

Report on the Audit of the Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidenced obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosure is inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate to those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated to those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law and regulations preclude public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITOR'S REPORT**To the Shareholders of Hayah Insurance Company P.J.S.C****Report on other Legal and Regulatory Requirements**

Further, as required by the UAE Federal Decree Law No. (32) of 2021 (as amended), we report that:

- i) We have obtained all the information we considered necessary for the purposes of our audit;
- ii) The financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Law No. (32) of 2021 (as amended);
- iii) The Company has maintained proper books of account in accordance with established accounting principles;
- iv) The financial information included in the Chairperson's report is consistent with the books of account of the Company;
- v) Investments in shares and stocks during the year ended 31 December 2025 are disclosed in notes 7 and 8 to these financial statements;
- vi) Note 19 to the financial statements discloses material related party transactions and balances, and the terms under which they were conducted;
- vii) The Company did not make any social contribution during the year ended 31 December 2025 as disclosed in note 27; and
- viii) Based on the information that has been made available to us nothing has come to our attention which causes us to believe that the Company has, during the financial year ended 31 December 2025, contravened any of the applicable provisions of the UAE Federal Law No. (32) of 2021 (as amended), or its Articles of Association, which would materially affect its activities or its financial position as at 31 December 2025.

Further, as required by the UAE Federal Law No. (6) of 2025, we report that we have obtained all the information and explanation we considered necessary for the purpose of our audit.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

1 (a) Legal status and activities

HAYAH Insurance Company P.J.S.C. (the "Company") is a public joint stock company, registered and incorporated in the Emirate of Abu Dhabi, United Arab Emirates on 26 July 2008. The Company is registered under the UAE Federal Decree Law No. (32) of 2021 (as amended), relating to commercial companies. The Company is subject to the regulations of the U.A.E. Federal Law No. (6) of 2025. The Company is registered with the Insurance Companies Register of the Central Bank of the UAE ("CBUAE") under registration No. (83). The Company's ordinary shares are listed on Abu Dhabi Securities Exchange (ADX) and its principal activity is providing health and life insurance solutions.

The registered office of the Company is located at Floor 16, Sheikh Sultan Bin Hamdan Building, Corniche Road, P.O. Box 63323, Abu Dhabi, United Arab Emirates.

During the year, Federal Decree Law No. (6) of 2025 was issued, effective 16 September 2025, repealing Federal Decree Law No. (48) of 2023. Pursuant to Article 184 of Federal Decree Law No. (6) of 2025, the Company has a period of one year from the effective date to align its operations and governance framework with the requirements of the new legislation. The Company is currently evaluating the impact of the Federal Decree Law No. (6) of 2025 and will implement any necessary changes within the permitted transition period.

1 (b) Going concern

As at 31 December 2025, the Company had accumulated losses of AED 77,501 thousand (*31 December 2024: AED 78,675 thousand*). The validity of going concern assumptions is dependent upon future operations and the ability of the Company to generate sufficient cash flows to meet its future obligations. The Company has sufficient cash balances as at 31 December 2025, and future plans indicate that the Company will be profitable and will generate sufficient cash flows. The Company's directors are, therefore, confident that the Company will be able to meet its liabilities as and when they fall due and to carry on its business without a significant curtailment of operations. Accordingly, these financial statements have been prepared on a going concern basis.

1 (c) Accumulated losses

As at 31 December 2025, the Company's accumulated losses represent 38.8% of the share capital of the Company (*31 December 2024: 39.3%*). The history of these accumulated losses is analysed below:

- Carried-forward accumulated losses as at 31 December 2014 related to Green Crescent Insurance Company amounting to AED 28,438 thousand, which is prior to the formation of AXA Green Crescent Insurance Company P.J.S.C. in 2015;
- Net loss of AED 15,444 thousand incurred during the year ended 31 December 2015, was mainly attributable to a large expense base amounting to AED 20,852 thousand, offset by underwriting surplus and investments income of AED 4,632 thousand and AED 776 thousand respectively. Furthermore, accumulated losses were adjusted with an amount of AED 68 thousand as charges incurred on conversion of bonds into share capital of the Company;
- Net loss of AED 13,910 thousand incurred during the year ended 31 December 2016, was mainly attributable to the large expense base amounting to AED 21,220 thousand, offset by underwriting surplus and investment income of AED 3,613 thousand and AED 3,697 thousand respectively;
- Net loss of AED 18,904 thousand incurred during the year ended 31 December 2017, was mainly attributable to losses on termination of life and savings contract amounting to AED 15,352 thousand;

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

1 (c) Accumulated losses (*continued*)

- Net loss of AED 2,205 thousand incurred during the year ended 31 December 2018, was mainly attributable to the large expense base amounting to AED 15,434 thousand, offset by underwriting surplus and investment income of AED 7,857 thousand and AED 5,372 thousand respectively.
- Furthermore, the balance of the accumulated losses for the year ended 31 December 2018 was re-stated with a downward adjustment amounting to AED 2,150 thousand related to the adoption of IFRS 9 “Financial Instruments”;
- Net profit of AED 162 thousand for the year ended 31 December 2019, was mainly attributable to prudent underwriting measures taken during the year;
- Net profit of AED 2,246 thousand for the year ended 31 December 2020, predominantly attributable to favorable underwriting margin and better loss ratios for most of its business;
- Net profit of AED 3,962 thousand (restated) for the year ended 31 December 2021, was attributable to better investment returns as compared to previous year;
- Net profit of AED 7,426 thousand (restated) for the year ended 31 December 2022, was attributable to positive underwriting results arising from Group Life business;
- Net loss of AED 5,698 thousand for the year ended 31 December 2023, is mainly attributable to negative underwriting results specifically arising from Medical business;
- Net profit of AED 4,645 thousand for the year ended 31 December 2024, is attributable to positive underwriting results arising from Group Life business; and
- Net profit of AED 1,670 thousand for the year ended 31 December 2025, is attributable to positive underwriting results arising from Group Life and individual health business.

The Company continues to implement a corrective action plan to reduce accumulated losses, strengthen its capital position and improve profitability. Key measures include planned capital strengthening actions (subject to required approvals), repricing and underwriting improvements in the medical portfolio, and enhanced monitoring and governance to support improved technical results and overall performance.

2 Basis of preparation

(a) *Statement of compliance*

The financial statements of the Company have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB). and in compliance with the applicable requirements of the United Arab Emirates (UAE) Federal Decree Law No. 32 of 2021 (as amended) (“Companies Law”), relating to commercial companies and United Arab Emirates (UAE) Federal Law No. (6) of 2025.

(b) *Basis of measurement*

These financial statements have been prepared under the historical cost convention except for revaluation of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income and insurance and reinsurance contracts which are measured at the estimated fulfillment cashflows that are expected to arise as the Company fulfills its contractual obligations.

(c) *Functional and reporting currency*

These financial statements are presented in United Arab Emirates Dirhams (“AED”), which is the Company’s functional currency. Except as indicated, financial information presented in AED has been rounded to the nearest thousand.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

2 Basis of preparation *(continued)*

(d) Use of estimates and judgement

In preparing these financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the period in which the estimate is revised and in any future period affected. The significant judgments made by management that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are set out below.

(i) Estimation uncertainty

Insurance and reinsurance contracts

Insurance and reinsurance contracts require several estimates and judgments to be made for recognition and measurement which are described in note 3.

Impairment of financial instruments

Assessment of whether credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of Expected Credit Losses ("ECL") requires the use of complex models and significant assumptions about future economic conditions and credit behaviour. The Company considers a financial asset to be in default when:

- The borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- The financial asset is more than 30 days past due.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

(ii) Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimations and assumptions, which have the most significant effect on the amounts recognised in the financial statements.

Classification of investments

Management decides on acquisition of an investment whether it should be classified as investments carried at fair value or amortised cost on the basis of both:

- (a) its business model for managing the financial assets; and
- (b) the contractual cash flow characteristics of the financial asset.

For equity investments carried at fair value, management decides whether it should be classified as investments carried at fair value through other comprehensive income or fair value through profit or loss.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

2 Basis of preparation *(continued)*

(ii) Judgments *(continued)*

Investments in equity instruments are classified and measured at fair value through profit or loss ("FVTPL") except if the equity investment is not held for trading and is designated by the Company at fair value through other comprehensive income ("FVOCI").

Further, even if the asset meets the amortised cost criteria the Company may choose at initial recognition to designate the financial asset as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

For debt securities acquired to match its business model of development of the line of business, the Company classified these investments as financial assets at fair value through other comprehensive income.

3 Material accounting policy information

Insurance contracts issued and reinsurance contracts held

The Company issues contracts that transfer significant insurance risk from the insured to the Company. Insurance contracts are contracts under which the Company accepts significant insurance risk from a policyholder by agreeing to compensate the policyholder if a specified uncertain future event adversely affects the policyholder. In making this assessment, all substantive rights and obligations, including those arising from law or regulation, are considered on a contract-by-contract basis. The Company uses judgement to assess whether a contract transfers insurance risk (that is, if there is a scenario with commercial substance in which the Company has the possibility of a loss on a present value basis) and whether the accepted insurance risk is significant.

In the normal course of business, the Company uses reinsurance to mitigate its risk exposures. A reinsurance contract transfers significant risk if it transfers substantially all of the insurance risk resulting from the insured portion of the underlying insurance contracts, even if it does not expose the reinsurer to the possibility of a significant loss. All references to insurance contracts in the financial statements apply to insurance contracts issued or acquired and reinsurance contracts held unless specifically stated otherwise.

The Company does not write any investment contracts with discretionary participation features or insurance contracts with direct participation features.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Level of aggregation

The Company identifies portfolios by aggregating insurance contracts that are subject to similar risks and managed together. In grouping insurance contracts into portfolios, the Company considers the similarity of risks rather than the specific labelling of product lines. The Company has determined that all contracts within each product line, as defined for management purposes, have similar risks. Therefore, when contracts are managed together, they represent a portfolio of contracts. Each portfolio is further disaggregated into group of contracts that are issued within a calendar year (annual cohorts) and are (i) contracts that are onerous at initial recognition; (ii) contracts that at initial recognition have no significant possibility of becoming onerous subsequently; or (iii) a group of remaining contracts. These groups represent the level of aggregation at which insurance contracts are initially recognised and measured. Such groups are not subsequently reconsidered.

Contracts within a portfolio that would fall into different groups only because law or regulation specifically constrains the Company's practical ability to set a different price or level of benefits for policyholders with different characteristics are included in the same group.

For reinsurance contracts, the risks that must be similar and managed together to those transferred from the underlying contract to the issuer of the reinsurance contract is required to be considered. When deciding whether these risks are similar, reference must be made to the risk profile of underlying contracts as well as the nature of the risks that are transferred.

If risks covered are not similar enough between different treaties, they will not be classified into the same portfolios. It is possible for a portfolio to consist of a single reinsurance treaty if there are no other reinsurance treaties that are deemed to have a similar risk and are managed together.

Contract boundaries

The measurement of a group of contracts includes all of the future cash flows within the boundaries of each contract in a group. The period covered by the premiums within the contract boundary is the "coverage period".

For insurance contracts, cash flows are within the contract boundary if they arise from substantive rights and obligation that exist during the reporting period in which the Company can compel the policyholder to pay premium or has a substantive obligation to provide services. For reinsurance contracts held, cash flows are within the contract boundary if they arise from substantive rights and obligation that exist during the reporting period in which the Company is compelled to pay amounts to the reinsurer or has a substantive right to receive services from the reinsurer.

Judgement is required to assess the Company's practical ability to reprice the entire contract to determine if related cash flows are within the contract boundary.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Initial Recognition and Subsequent Measurement (continued)

Initial Recognition and Subsequent Measurement

General measurement model

The general measurement model ("GMM"), also known as the building block approach ('BBA'), consists of the fulfilment cash flows and the contractual service margin. The fulfilment cash flows represent the risk-adjusted present value of an entity's rights and obligations to the policyholders, comprising estimates of expected cash flows, discounting and an explicit risk adjustment for non-financial risk. This risk adjustment represents compensation required for bearing uncertainty about the amount and timing of the cash flows that arises from non-financial risk. The contractual service margin ('CSM') represents the unearned profit from in-force contracts that the Company will recognise as it provides services over the coverage period.

At inception, the contractual service margin cannot be negative. If the fulfilment cash flows lead to a negative contractual service margin at inception, it will be set to zero and the negative amount will be recorded immediately in the income statement. At the end of a reporting period, the carrying amount of a group of insurance contracts is the sum of the liability for remaining coverage and the liability for incurred claims. The liability for remaining coverage consists of the fulfilment cash flows related to future services and the contractual service margin, while the liability for incurred claims consists of the fulfilment cash flows related to past services.

The contractual service margin gets adjusted for changes in cash flows related to future services and for the interest accretion at interest rates locked-in at initial recognition of the group of contracts. A release from the contractual service margin is recognised in profit or loss each period to reflect the services provided in that period based on "coverage units". IFRS 17 only provides principle-based guidance on how to determine these coverage units.

The Company has measured the following lines of business under the GMM model: Credit Life, Term Life.

Variable fee approach

The variable fee approach ("VFA") is a mandatory modification of the general measurement model regarding the treatment of the contractual service margin in order to accommodate direct participating contracts. An insurance contract has a direct participation feature if the following three requirements are met:

- the contractual terms specify that the policyholder participates in a share of a clearly identified pool of underlying items;
- the entity expects to pay to the policyholder an amount equal to a substantial share of the fair value returns on the underlying items; and
- the entity expects a substantial proportion of any change in the amounts to be paid to the policyholder to vary with the change in fair value of the underlying items.

The contracts issued by the Company does not fall under the measurement requirements of Variable fee approach.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Premium allocation approach

The Company applies the premium allocation approach (PAA) to simplify the measurement of the groups of insurance contracts that it issues and the groups of reinsurance contracts it holds where the coverage period is 12 months or less.

Under the premium allocation approach, the liability for remaining coverage is measured as the amount of premiums received net of acquisition cash flows paid, less the net amount of premiums and acquisition cash flows that have been recognised in profit or loss over the expired portion of the coverage period based on the passage of time. When measuring liabilities for incurred claims, the Company discounts the future cash flows (unless they are expected to occur in one year or less from the date on which the claims are incurred) and includes an explicit risk adjustment for non-financial risk.

Insurance revenue and insurance service expenses are recognised in the income statement based on the concept of services provided during the period. The losses are required to be recognised immediately on contracts that are expected to be onerous. For insurance contracts measured under the PAA, it is assumed that contracts are not onerous at initial recognition, unless facts and circumstances indicate otherwise. The Company's focus is to grow a profitable and sustainable business and does not anticipate the recognition of onerous contracts except where the following have been identified:

- Relevant pricing decisions;
- Initial stages of a new business acquired where the underlying contracts are onerous; and
- Any other strategic decisions the management considers appropriate.

The measurement of the liability for incurred claims is identical under all three measurement models, apart from the determination of locked-in interest rates used for discounting. An explicit risk adjustment for non-financial risk is estimated separately from the other estimates for the liability for incurred claims. This risk adjustment represents compensation required for bearing uncertainty about the amount and timing of the cash flows that arises from non-financial risk. The risk adjustment forms part of the fulfilment cash flows for a group of insurance contracts. The Company has measured the following lines of business under the PAA model: Medical, Group life and Short term individual life.

Insurance revenue and insurance service expenses

As the Company provides insurance contract services under the group of insurance contracts, it reduces the Liability for Remaining Coverage and recognises insurance revenue. The amount of insurance revenue recognised in the reporting period depicts the transfer of promised services at an amount that reflects the portion of consideration that the Company expects to be entitled to in exchange for those services.

For insurance contracts measured under the premium allocation approach, expected premium receipts are allocated to insurance revenue based on the passage of time.

Insurance service expenses include incurred claims and benefits, other incurred directly attributable expenses, insurance acquisition cash flows amortisation, changes that relate to past service i.e., changes in the Fulfilment cash flows ("FCF") relating to the liability for incurred claims ("LIC"), changes that relate to future service (i.e., changes in the FCF that result in onerous contract losses or reversals of those losses).

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Accounting policy choices

The following table sets out the accounting policy choices that the Company has adopted:

Description	Adopted approach
Insurance acquisition cash flows	The Company has adopted the policy choice of amortising the insurance acquisition cash flows over the contract's period regardless of the total coverage period of the contracts.
Liability for remaining coverage ("LRC") adjusted for financial risk and time value of money	The Company has adopted to disregard interest accretion on the LRC for PAA eligible contracts.
Liability for incurred claims ("LIC") adjusted for financial risk and time value of money	The Company has adopted to discount and adjust the LIC for the time value of money except where the claim run off period is expected to be less than one year.
Insurance finance income and expenses	The Company has adopted to include changes in discount rates and other financial changes within the statement of profit or loss.
Disaggregation of risk adjustment	The Company does not disaggregate the change in risk adjustment for non-financial risk between a financial and non-financial portion and plans to include the entire change within the insurance service result.
Recovery of insurance acquisition cash flows	The Company has adopted to consider the time value of money when allocating the portion of the premiums that relates to the recovery of insurance acquisition cash flows.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Areas of significant judgements and estimates

The following are key judgements and estimates that are applied by the Company.

Discount rates

The Company has used the bottom-up approach to derive the discount rates for all groups of contracts.

Under the bottom-up approach, the discount rate is determined as the risk-free yield, adjusted for country risk premium and differences in liquidity characteristics between the financial assets used to derive the risk-free yield and the relevant liability cash flows (known as an 'illiquidity premium'). The significant area of judgement is deriving the illiquidity premium which is required to adjust the risk-free yield curve. The risk-free curve itself will either be derived by the Company from risk-free assets in the market, or the Company may choose to apply a published risk-free curve.

Where the Company is exposed to FCFs that vary with inflation (e.g. claims and expense cash flows), the Company has explicitly allowed for inflation in the FCFs measurement and has discounted these using nominal discount rates set using the bottom-up approach. The yield curves that were used to discount the estimates of future cash flows are as follows:

Financial year	1 Year	5 Year	10 Year	20 year	30 Year
31 December 2025	4.55%	4.65%	4.89%	5.31%	5.59%
31 December 2024	5.29%	5.41%	5.54%	5.74%	5.83%

Risk adjustment

The Company has estimated the risk adjustment using a confidence level (probability of sufficiency) approach.

The methodology adopted is based on a mix of results of Company's own experience variability and the Value at Risk ("VaR") approach in line with Solvency II. The Appointed Actuary calibrates the parameters of the distribution based on the experience and credibility of the historical data. The Value at Risk (VaR) at the 75th percentile is calculated based on the lognormal distribution assumption, representing the expected loss at a 75% confidence level. The diversification benefit has been allowed for in the estimation of RA driven by the mix of business and the expected correlations between them.

Onerous contracts – loss component

The Company assumes that no contracts in the portfolio are onerous at initial recognition, unless facts and circumstances indicate otherwise. The Company assesses whether contracts that are not onerous at initial recognition have no significant possibility of becoming onerous subsequently by assessing the likelihood of changes in applicable facts and circumstances.

If at any time during the coverage period, facts and circumstances indicate that a group of insurance contracts is onerous, The Company shall calculate the difference between:

- (a) the carrying amount of the liability for remaining coverage; and
- (b) the fulfilment cash flows that related to the remaining coverage of the group.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Areas of significant judgements and estimates (continued)

Onerous contracts – loss component (continued)

A contract is onerous if the fulfilment cash flows exceed the Liability for remaining coverage. Hayah will therefore use a combined ratio as a proxy for fulfilment cashflows, determined on the following basis (to ensure consistency with fulfilment cash flows):

- Based on expected claims and expenses rather than incurred amounts
- Includes the impact of the time value of money at locked-in rates
- Includes an allowance for the risk adjustment
- Includes an allowance for directly attributable expenses (which includes a portion of overheads) as required by IFRS 17
- Calculated at the most granular segmentation for which such assessments are available, which is currently at Actuarial Reserving class level

The key indicator that the Company has used for the purpose of this assessment is the forward-looking combined ratio derived as per the above points. Should this ratio exceed 100% for a given segment, this group shall be classified as onerous.

Modification and derecognition

An insurance contract may be modified, either by agreement between the parties or as result of regulation. If the terms are modified, an entity must derecognise the original insurance contract and recognise the modified contract as a new contract, if and only if certain conditions as prescribed in IFRS 17 are satisfied. The exercise of a right included in the terms of a contract is not a modification. Any contract modification that changes the accounting model or the applicable standard for measuring the components of the insurance contract, is likely to result in derecognition. If a contract modification meets none of the conditions for derecognition, any changes in cash flows caused by the modification are treated as changes in the estimates of the fulfilment cash flow.

Contractual Service Margin and Coverage units

For long term Individual Life contracts, measured under the GMM, the Company recognises a contractual service margin (CSM) which represents the unearned profit the Company will earn as it provides service under those contracts. A coverage units methodology will be used for the release of the CSM. Based on the benefit for the policy holders, the applicable CSM release pattern will be determined by using coverage unit methodology which will reflect the benefit defined in the insurance contracts with the policy holders. The coverage units will be determined based upon the sum assured.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Insurance contracts issued and reinsurance contracts held (continued)

Areas of significant judgements and estimates (continued)

Measurement of expenses

The Company has defined acquisition expenses as the costs of selling, underwriting and started issuing a group of insurance contracts as per IFRS 17 requirements. The Company has defined acquisition costs as attributable to a contract (or group of contracts) if the cost is incurred to acquire a specific contract or group of contracts (as opposed to new business in general).

Insurance acquisition cash flows (commissions and premium taxes) allocated to a group are deferred and recognised over the coverage period of contracts.

The attributable costs refer to costs that are either fully or partially related to insurance operations. These costs are allocated to the group of insurance contracts level, while non-allocable expenses are recognised directly in the profit and loss account. The allocation of expenses is done systematically and rationally, reflecting the transfer of services provided by the insurer over the coverage period.

Both acquisition and attributable costs fall under the insurance service expense, while the non-attributable costs are reported under other operating expenses.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the statement of profit or loss during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to write off the cost of assets to their estimated residual values over their expected useful lives for current and prior years and are charged as follows:

	<i>Years</i>
Leasehold improvements	5
Furniture and fixtures	3
Office and computer equipment	3
Motor vehicles	5

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the statement of profit or loss.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Intangible assets

Intangible assets are stated at historical costs less accumulated amortisation and any impairment losses. Amortisation for computer software is provided over the estimated useful life of five years using the straight-line method. Intangible assets classified under development costs relate to the Company's life platform development, software and website.

Development costs that are directly attributable to the design and testing of identifiable and unique products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the product's development so that it will be available for use;
- management intends to complete the product and use or sell it;
- there is an ability to use or sell the product;
- it can be demonstrated how the product will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the product are available; and
- the expenditure attributable to the product during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the life products and related software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use. The expected useful life of the Company's intangible assets for current and prior years is 5 years.

Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Non derivative financial assets and liabilities

(i) Recognition

A financial asset or financial liability is initially measured at fair value plus, for an item not carried at FVTPL, transaction costs that are directly attributable to its acquisition or issue.

All recognised financial assets and financial liabilities are subsequently measured in their entirety at either amortised cost or fair value.

(ii) Classification

Financial assets at amortised cost

At inception a financial asset is classified as measured at amortised cost or fair value.

A financial asset qualifies for amortised cost measurement only if it meets both of the following two conditions:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principle and interest on the principle amount outstanding.

If a financial asset does not meet both of these conditions, then it is measured at fair value.

The Company makes an assessment of a business model at portfolio level as this reflects the best way the business is managed and information is provided to the management.

In making an assessment of whether an asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows, the Company considers:

- management's stated policies and objectives for the portfolio and the operation of those policies in practice;
- how management evaluates the performance of the portfolio;
- whether management's strategy focus on earning contractual interest revenue;
- the degree of frequency of any expected asset sales;
- the reason of any asset sales; and
- whether assets that are sold are held for an extended period of time relative to their contractual maturity or are sold shortly after acquisition or an extended time before maturity.

Financial assets at fair value through profit or loss

Financial assets held for trading are not held within a business model whose objective is to hold the asset in order to collect contractual cash flows.

The Company has designated certain financial assets at fair value through profit or loss because designation eliminates or significantly reduces an accounting mismatch, which would otherwise arise.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Non derivative financial assets and liabilities

(ii) *Classification*

Financial assets at fair value through other comprehensive income

At initial recognition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in certain equity instruments as at FVOCI. Designation to FVOCI is not permitted if the equity instrument is held for trading.

Gains and losses on such equity instruments are never reclassified to income statement, and no impairment is recognised in profit or loss.

Financial assets are not reclassified subsequent to their initial recognition, except when the Company changes its business model for managing financial assets.

Loans and receivables

These assets are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these are measured at amortised cost using the effective interest method.

Loans and receivables comprise mainly insurance and other receivables.

Equity securities

Ordinary shares of the Company are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

Non-derivative financial liabilities

All financial liabilities (including liabilities designated at fair value through profit or loss) are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

Impairment

The impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. The financial assets at amortised cost consist of premiums and insurance receivables, other receivables (excluding prepayments), cash and cash equivalents and due from related parties.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Non derivative financial assets and liabilities (continued)

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, for which they are measured as 12-month ECLs:

- Debt investment securities that are determined to have low credit risk at the reporting date; and
- Other financial instruments on which credit risk has not increased significantly since their initial recognition.

The Company considers a debt security to have low credit risk when their credit risk rating is equivalent to the globally understood definition of 'investment grade'.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Lifetime ECLs are ECLs that result from all possible default events over the expected life of a financial instrument.

Credit loss allowances are measured using a three-stage approach based on the extent of credit deterioration since origination:

- *Stage 1* – Where there has not been a significant increase in credit risk ("SICR") since initial recognition of a financial instrument, an amount equal to 12 months expected credit loss is recorded. The expected credit loss is computed using a probability of default occurring over the next 12 months. For those instruments with a remaining maturity of less than 12 months, a probability of default corresponding to remaining term to maturity is used.
- *Stage 2* – When a financial instrument experiences an increase in SICR subsequent to origination but is not considered to be in default, it is included in Stage 2. This requires the computation of expected credit loss based on the probability of default over the remaining estimated life of the financial instrument.
- *Stage 3* – Financial instruments that are considered to be in default are included in this stage. Similar to Stage 2, the allowance for credit losses captures the lifetime expected credit losses.

The key inputs into the measurement of ECLs are the term structure of the following variables:

- Probability of default (PD);
- Loss given default (LGD);
- Exposure at default (EAD).

These parameters are generally derived from internally developed statistical models and other historical data. They are adjusted to reflect forward-looking information.

The Company has adopted simplified approach in case of premiums and insurance receivables. In case of financial assets for which simplified approach is adopted lifetime expected credit loss is recognised.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Non derivative financial assets and liabilities (continued)

Measurement of ECLs (continued)

Details of these statistical parameters/inputs are as follows:

- *PD* – The probability of default is an estimate of the likelihood of default over a given time horizon.
- *LGD* – The loss given default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.
- *EAD* – The exposure at default is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date.

Forward-looking information

The measurement of expected credit losses considers information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information requires significant judgement.

Macroeconomic factors

In its models, the Company relies on a broad range of forward-looking information as economic inputs, such as: GDP, GDP annual growth rate, inflation rates, interest rates, etc.

The inputs and models used for calculating expected credit losses may not always capture all characteristics of the market at the date of the financial statements.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets.

Definition of default

Objective evidence that financial assets are impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of an amount due to the Company on terms that the Company would not otherwise consider, indication that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse change in the payment status of borrowers or issuers, or economic conditions that correlate with defaults in the Company.

In assessing whether a borrower is in default, the Company considers indicators that are:

- Qualitative – e.g. breaches of covenant;
- Quantitative – e.g. overdue status and non-payment on another obligation of the same issuer to the Company; and
- Based on data developed internally and obtained from external sources.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Non derivative financial assets and liabilities (continued)

Derecognition of financial assets and liabilities

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risk and rewards of the ownership are transferred or in which the Company neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control on the financial asset. Any interest in transferred financial assets that qualify for derecognition that is carried or retained by the Company is recognised as a separate asset or liability in the statement of financial position. On derecognition of financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

The Company enters into transactions whereby it transfers assets recognised on its statement of financial position but retains either all or substantially all of the risks and rewards of the financial assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognised.

In transactions in which the Company neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset and it retains control over the asset, the Company continues to recognise the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

In certain transactions the Company retains the obligation to service the transferred financial asset for a fee. The transferred asset is derecognised if it meets the derecognition criteria. An asset or liability is recognised for the servicing contract, depending on whether the servicing fee is more than adequate (asset) or is less than adequate (liability) for performing the services.

The Company derecognises a financial liability when its contractual obligation is discharged or cancelled or expire.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Company measures the fair value of an instrument using the quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the Company determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in the statement of profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Company measures assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities that are exposed to market risk and credit risk that are managed by the Company on the basis of the net exposure to either market or credit risk are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) for a particular risk exposure. Those portfolio-level adjustments are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

The Company recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Employees benefits

The Company provides end-of-service benefits to its expatriate employees. The entitlement to these benefits is usually based upon the employees' length of service and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment and are not less than the liability arising under UAE Labour Law.

The Company contributes to the pension scheme for UAE nationals under the UAE pension and social security law. This is a defined contribution pension plan and the Company's contributions are charged to the statement of profit or loss in the period to which they relate. In respect of this scheme, the Company has a legal and constructive obligation to pay the fixed contributions as they fall due and no obligations exist to pay the future benefits.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Investment income

Investment income mainly comprises of interest, dividend income, realised gains and losses on sale of investments at fair value through profit or loss and debt securities through other comprehensive income. Investment income is stated net of investment expenses and charges.

Interest income is recognised in the statement of profit or loss on an accrual basis. Interest includes interest earned on bank deposits and debt securities. Dividend receivables are included separately in dividend income when a dividend is declared. Realised gains and losses on investments are calculated as the difference between net sales proceeds and the carrying value of investments.

Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the statement of profit or loss on a straight-line basis over the period of the lease.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Share capital

Shares are classified as equity when there is no obligation to transfer cash or other assets.

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and can be measured reliably.

Other payables and accruals

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Accounts payable are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Leases

At inception of a contract, the Company assesses whether a contract is or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset of time in exchange for consideration.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Leases (continued)

(a) As a lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone price.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and estimate of costs to dismantle and remove the underlying assets or to restore the underlying asset or the site on which it is located, less any lease incentives received. Subsequently, the right of use asset is measured at cost less any accumulated depreciation and impairment losses and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Company has applied judgement to determine the lease term for lease contracts in which it is a lessee that include renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

(b) As a lessor

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

Leases (continued)

(b) As a lessor (continued)

If an arrangement contains lease and non-lease components, then the Company applies IFRS 15 to allocate the consideration in the contract.

The Company applies the derecognition and impairment requirements in IFRS 9 to the net investment in the lease. The Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

Insurance and reinsurance contracts

Insurance and reinsurance contracts The company offers insurance contract services and reduces its liability for remaining coverage while recognizing insurance revenue. The amount of insurance revenue recognized reflects the exchange of services for an amount that the company expects to be entitled to.

Taxation

On 9 December 2022, the UAE Ministry of Finance released the Federal Decree Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the Law) to enact a Federal Corporate Tax (CT) regime in the UAE. The CT regime will become effective for accounting periods beginning on or after 1 June 2023.

For the Company, accounting for current and deferred taxes have become applicable from the period beginning 1 January 2024. Accordingly, management has applied following accounting policies to incorporate the applicable Corporate Tax in accordance with IAS 12 “Income Taxes”.

(a) Current Taxation

Provision of current tax is based on the taxable income for the period determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the period.

Income tax expense is recognised in interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

(b) Deferred Taxation

Deferred tax is accounted for in respect of all temporary differences at the statement of financial position date between the tax bases and carrying amounts of assets and liabilities for financial reporting purposes. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

3 Material accounting policy information (continued)

(b) *Deferred Taxation (continued)*

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates (and tax laws) that have been enacted or substantively enacted at the statement of financial position date. Deferred tax is charged or credited to the statement of profit or loss, except in the case of items credited or charged to statement of other comprehensive income or equity in which case it is included in statement of other comprehensive income or equity.

4 New and amended standards and interpretations

New and revised IFRSs and interpretations applied on the financial statements

The following relevant standards, interpretations and amendments to existing standards were issued by the IASB:

Standard number	Title	Effective date
IAS 21	Amendments to IAS 21 Lack of exchangeability Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2025

These standards did not have a material impact on these financial statements.

Standards issued but not yet effective

The impact of the new standards, interpretations and amendments that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

Standard number	Title	Effective date
IFRS 9 & IFRS 7	Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures regarding the classification and measurement of financial instruments	1 January 2026
IFRS 18	Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19	Subsidiaries without Public Accountability: Disclosures	1 January 2027

Capital work in progress comprises costs incurred in respect of an ongoing company-wide system implementation, representing amounts paid to vendors for development and implementation services. The system is intended to support and integrate the Company's operational and financial processes across all lines of business. As at the reporting date, the system is not yet fully available for use and remains under development. Management expects the implementation to be completed and the system to be ready for its intended use during the year ending 31 December 2026, at which point the accumulated balance will be transferred to the appropriate asset category and amortised over its estimated useful life.

Notes to the financial statements

9 Insurance and reinsurance contract assets and liabilities *(continued)*

Expected recognition of the contractual service margin - An analysis of the expected recognition of the CSM remaining at the end of the reporting period in profit or loss is provided in the following table (number of years until expected to be recognised)

	1	2	3	4	5	>6
	AED'000	AED'000	AED'000	AED'000	AED'000	AED'000
31 December 2025						
Total CSM (net of reinsurance contracts held)	2,408	1,725	1,260	935	721	3,424
31 December 2024						
Total CSM (net of reinsurance contracts held)	1,651	1,354	1,123	937	785	4,591

Management engaged an independent actuary for assessment of the average claim run-off period through construction of loss development triangles, which suggested that the claims run-off period is not more than 24 months. Further, as per past experience, management is of the view that uncertainty about the amount and timing of claims payments is typically resolved within one year of claims occurrence. Accordingly, the Company has not presented the claim development table in these financial statements.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

10 Other receivables and prepayments

	2025 AED'000	2024 AED'000
Prepayments	3,136	1,233
Interest receivables	824	1,047
Staff receivables	317	343
Other receivables*	5,436	7,765

*Other receivables include an amount of AED 3.6 million (31 December 2024: AED 4.8 million), which is due to be collected from the custodian of the Company's investment contract assets.

11 Statutory deposits

In accordance with the requirements of Article 92 of Federal Decree Law No. (6) of 2025, the Company maintains bank deposits of AED 4,000 thousand (31 December 2024: AED 4,000 thousand), as a guarantee against its Insurance of Persons and Fund Accumulation Operations License (medical and life). These deposits cannot be utilized without the consent of Central Bank of UAE.

The statutory deposits are held with local commercial banks and carry interest at the rate of 0.25% to 4.37% per annum (31 December 2024: 0.25% to 4.37% per annum).

12 Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise the following:

	31 December 2025 AED'000	31 December 2024 AED'000
Statutory deposits (11)	4,000	4,000
Time deposits	2,000	10,000
Demand deposits and cash	34,428	8,448
	<u>40,428</u>	<u>22,448</u>
Bank balances and cash	40,428	22,448
Less: statutory deposits	(4,000)	(4,000)
Less: deposits with original maturities of three months or more	(2,000)	(10,000)
	<u>34,428</u>	<u>8,448</u>

At 31 December 2025, bank deposits carry an effective interest rate of 3.8% to 4.12% per annum (31 December 2024: 0.25% to 5.01% per annum). All bank balances and deposits are held with local banks in United Arab Emirates.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

13 Insurance payables and other accruals

	31 December 2025 AED'000	31 December 2024 AED'000
VAT payable	1,060	84
Other payables	2,570	1,899
	<u>3,630</u>	<u>1,983</u>

14 Investment contract assets and liabilities

	31 December 2025 AED'000	31 December 2024 AED'000
Investment contract asset and liability for employee saver product*	35,817	26,400
Investment contract asset and liability for smart saver product**	31,722	-
	<u>67,539</u>	<u>26,400</u>

*During 2022, the Company initiated a new savings product "Employee Secure Saver", whereby the Company receives contributions from third party companies ("policyholders") relating to the end of service benefits of their employees ("participants"). The product ensures a guaranteed fund to its participants and does not transfer significant insurance risk to the Company. Therefore, this product has been classified as an investment contract and accordingly, a financial liability has been created against the contributions received from its participants. This liability does not have a contractual maturity, and these funds can be withdrawn anytime upon the participant's death, retirement or resignation from the policyholder companies. Further, the Company has a contract with its reinsurer who is the ultimate guarantor of this fund and therefore all the contributions received are transferred to its reinsurer. Accordingly, an equivalent amount has been booked as a financial asset representing the funds transferred and receivable from its reinsurer with respect to this product.

A summary of contributions and redemptions from the above product is given below:

	31 December 2025 AED'000	31 December 2024 AED'000
Balance at the beginning of the year	26,400	18,900
Contributions during the year	16,559	17,500
Redemptions during the year	(7,142)	(10,000)
Balance at the end of the year	<u>35,817</u>	<u>26,400</u>

**During 2025, the Company initiated its Smart Saver product which is a digital savings and investment product. This product provides the participants with an option to select funds where the contributions will be invested. Considering that the features of this product do not include any significant insurance risk, therefore the product has been classified and recorded as a financial liability.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

14 Investment contract assets and liabilities *(continued)*

A summary of contributions and redemptions for the smart saver product is given below:

	31 December 2025 AED'000	31 December 2024 AED'000
Balance at the beginning of the year	-	-
Contributions during the year	34,124	-
Redemptions during the year	(2,402)	-
Balance at the end of the year	<u>31,722</u>	<u>-</u>

15 Share capital

	2025 AED'000	2024 AED'000
<i>Authorised, issued and fully paid-up capital</i>		
200,000,000 shares of AED 1 each	<u>200,000</u>	<u>200,000</u>

16 Reserves

(a) Legal reserve

In accordance with Articles of Association of the Company and in line with the provisions of Article 241 of the UAE Federal Law No. (32) of 2021 (as amended), the Company is required to transfer annually to the legal reserve account an amount equal to 10% of its net profit until such reserve reaches 50% of the share capital of the Company. This reserve is not available for distribution. The Company has transferred AED 167 thousand (*31 December 2024: AED 465 thousand*) to the legal reserve from its net profit during the year.

(b) Other reserve

Subscription issuance fee of AED 0.025 per share was paid on subscription to cover the incorporation expenses of the Company amounting to AED 650 thousand. The Company received a refund relating to incorporation expenses amounting to AED 1,372 thousand which was recognised directly in equity under other reserve.

(c) Reinsurance risk reserve

In accordance with Article (34) to Insurance Authority's Board of Directors Decision No. (23) of 2019, insurance companies incorporated in the State and licensed by the Insurance Authority shall bind in the preparation of its annual financial statements and its final accounts to allocate an amount equal to 0.5% (five per thousand) of the total reinsurance premiums ceded by them in all classes in order to create a provision for the probability of failure of any of the reinsurers with whom the Company deals to pay what is due to the Company or default in its financial position. The provision shall be accounted year after year based on the reinsurance premiums ceded and may not be disposed-off without the written approval of the Director General. Accordingly, an amount of AED 784 thousand (*31 December 2024: AED 455 thousand*) has been recorded in equity as a reinsurance risk reserve.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

17 Provision for employees' end of service benefits

The Company provides for end of service benefits for its expatriate employees in accordance with the employees' contracts of employment. The movement in the provision during the year is as follows:

	2025 AED'000	2024 AED'000
Balance as at 1 January	2,496	2,429
Charged during the year	1,369	442
Paid during the year	(420)	(375)
Balance as at 31 December	3,445	2,496

18 Earning per share

Basic earnings per share is calculated by dividing the profit for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the earning for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares used to calculate basic earnings per share, plus the weighted average number of ordinary shares that would be issued on the conversion of all dilutive potential ordinary shares into ordinary shares.

The following reflects the earnings and shares data used in the earnings per share computations:

	31 December 2025	31 December 2024
Profit for the year (AED'000)	1,670	4,645
Weighted average number of ordinary shares (shares in '000)	200,000	200,000
Earnings per share for the year – basic and diluted (AED)	0.008	0.023

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

19 Related party transactions and balances

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and companies of which they are principal owners. Pricing policies and terms of these transactions are approved by the Company's management.

The Company maintains balances with these related parties which arise from commercial transactions in the ordinary course of business at commercial rates as follows:

	31 December 2025 AED'000	31 December 2024 AED'000
Medical premiums (Included in insurance contract liabilities)	-	4,518
Total due from related parties	-	4,518

Transactions with related parties during the year are as follows:

	31 December 2025 AED'000	31 December 2024 AED'000
Medical business with KANOO Group LLC (major shareholder)		
- Gross written premiums	-	17,586
- Claims paid	(6,658)	(11,711)

Compensation of key management personnel:

The remuneration of key management personnel during the period is as follows:

	31 December 2025 AED'000	31 December 2024 AED'000
Short term benefits	2,065	1,856
Employees' end of service benefits	160	122

20 Contingencies and commitments

Contingencies

As at 31 December 2025, the Company had contingent liabilities in respect of bank, other guarantees and other matters arising in the ordinary course of business from which it is anticipated that no material liabilities will arise, amounting to AED 2,000 thousand (31 December 2024: AED 2,000 thousand).

Commitments

Estimated capital call contracted for at the statement of financial position date but not provided for amounted to AED 61 thousand (31 December 2024: AED 99 thousand).

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework

The Company issues contracts that transfer insurance risk. This section summarises the insurance risks and the way the Company manages them.

(a) *Introduction and overview*

Governance framework

The primary objective of the Company's risk and financial management framework is to protect the Company's shareholders from events that hinder the sustainable achievement of financial performance objectives, including failing to exploit opportunities. Key management recognises the critical importance of having efficient and effective risk management systems in place.

Regulatory framework

Regulators are primarily interested in protecting the rights of insurance contract holders and shareholders and monitor closely to ensure that the Company is satisfactorily managing affairs for their benefit. At the same time, regulators are also interested in ensuring that the Company maintains an appropriate solvency position to meet unforeseen liabilities arising from economic shocks.

(b) *Underwriting risk*

The principal risk the Company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Company is to ensure that sufficient reserves are available to cover these liabilities.

The above risk exposure is mitigated by diversification across a portfolio of insurance contracts. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements.

The Company purchases reinsurance as part of its risk management mitigation programme. Reinsurance ceded is placed mainly on a proportional basis. The majority of reinsurance is quota-share and surplus reinsurance arrangements which is taken out to reduce the overall exposure of the Company.

Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims reserve and are in accordance with the reinsurance contracts. Although the Company has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded insurance, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance agreements.

Life insurance contracts

Life insurance contracts offered by the Company consist of term assurance.

Term assurance are conventional regular premium products when lump sum benefits are payable on death or permanent disability.

The Company's underwriting strategy is designed to ensure that risks are well diversified in terms of type of risk and level of insured benefits.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework *(continued)*

(b) Underwriting risk (continued)

This is largely achieved through diversification across industry sectors, the use of medical screening in order to ensure that pricing takes accounts of current health conditions and family medical history, regular review of actual claims experience and product pricing, as well as detailed claims handling procedures. Underwriting limits are in place to enforce appropriate risk selection criteria. For example, the Company has the right not to renew individual policies, it can impose deductibles and it has the right to reject the payment of fraudulent claims. Insurance contracts also entitle the Company to pursue third parties for payment of some or all costs. The Company further enforces a policy of actively managing and prompt pursuing of claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the Company.

For contracts when death or disability is the issued risk, the significant factors that should increase the overall frequency of claims are epidemics, widespread changes in lifestyle and natural disasters, resulting in earlier or more claims than expected.

Medical insurance contracts

The frequency and amounts of claims can be affected by several factors. The Company underwrites primarily insurance contracts for medical risks. These are regarded as short-term insurance contracts as claims are normally advised and settled within one to two years of the insured event taking place. This helps to mitigate insurance risk.

Medical insurance is designed to compensate contract holders for hospitalisation and medication expenses arising through illness and any other health issues.

For medical insurance the main risks are illnesses that require long-term hospitalisation and expensive medications. These contracts are underwritten by reference to the age and health status of the contract holder. Effective 1 January 2017, the Company is fully retaining the medical business.

The loss ratios determined by assessing net incurred claims in relation to net earned premium are analysed below by class of business for the current and previous year:

Type of risk	31 December 2025		31 December 2024	
	Gross loss ratio	Net loss ratio	Gross loss ratio	Net loss ratio
Group Life	51%	47%	62%	50%
Group Medical	87%	87%	74%	74%
Individual Medical	58%	34%	90%	90%
Individual Life	69%	32%	60%	47%

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework (continued)

(c) Financial risk management

The Company's financial assets comprise investments, insurance and reinsurance receivables, bank deposits, cash on hand and at bank and certain other receivables. Financial liabilities of the Company comprise of liabilities against due to related parties, trade and certain other payables.

The Company has exposure to the following primary risks from its use of financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk; and
- Operational risk

(i) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2025 AED'000	2024 AED'000
Time deposits	2,000	10,000
Cash and cash equivalents	34,428	8,448
Statutory deposits	4,000	4,000
Investment contract assets	67,539	26,400
Other receivables	6,577	9,155
Financial assets at fair value through OCI	67,437	74,029
Financial assets at fair value through profit or loss	17,767	19,478
	199,748	151,510

The assets above are analysed in the table below using ratings of Standard & Poors (S&P), Moody's and Fitch. The concentration of credit risk is substantially unchanged compared to the prior year.

	At 31 December 2025					
	Cash and Financial cash assets at equivalents FVOCI (including deposits) AED'000	assets at FVOCI AED'000	Financial assets at FVTPL AED'000	Other receivables AED'000	Investment contract assets AED '000	Total AED'000

Total	22,448	74,029	19,478	9,155	26,400	151,510

Management of credit risk

The following policies and procedures are in place to mitigate the Company's exposure to credit risk:

- The Company only enters into insurance and reinsurance contracts with recognised, credit worthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivables from insurance and reinsurance contracts are monitored on an ongoing basis in order to reduce the Company's exposure to bad debts.
- The Company seeks to limit credit risk with respect to agents and brokers by setting credit limits for individual agents and brokers and monitoring outstanding receivables.
- The Company's investment portfolio is managed in accordance with the investment policy established by the Investment Committee.
- The Company's bank balances are maintained with a range of international and local banks in accordance with limits set by the Investment Committee.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its commitments associated with insurance contracts and financial liabilities as they fall due. Liquidity risk can be caused by market disruptions or credit downgrades which may cause certain sources of funding to dry up immediately. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions.

Liquidity requirements are monitored on a monthly basis and management ensures that sufficient liquid funds are available to meet any commitments as they arise.

The Company manages liquidity risk by maintaining adequate liquid reserves by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Details of the Company's financial liabilities are summarised in the table below by the maturity profile of the Company's assets and liabilities based on the contractual repayment arrangements.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework *(continued)*

(c) Financial risk management (continued)

(ii) Liquidity risk (continued)

The contractual maturities of liabilities have been determined on the basis of the remaining year at the reporting date to the contractual maturity date. The maturity profile is monitored by management to ensure adequate liquidity is maintained.

	Contractual cash outflows		
	Carrying amount AED'000	Up to 180 days AED'000	181 to 365 days AED'000

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework (continued)

(c) Financial risk management (continued)

(iii) Market risk

Market risk arises from fluctuations in currency rates, equity prices and interest rates. Management monitors the market risk on an ongoing basis and on any significant transaction. Market risk is further analysed into currency risk, equity price risk and interest rate risk.

Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company has limited transactional exposure to exchange rate risk as it generally enters into contracts in UAE Dirham, being the functional currency of the Company and US Dollar. The AED is pegged to the US Dollar.

Price risk

Price risk is the risk that the fair values of equities and other quoted instruments decrease as the result of changes in the levels of indices and the value of individual instruments. The price risk exposure arises from the Company's equity and debt instruments portfolio carried at fair value. The effect on 'total equity' and 'statement of profit or loss' (as a result of a change in the value of investments held at fair value at 31 December 2025 due to a reasonably possible change in indices, with all other variables held constant, is as follows. The effect of decreases in prices is expected to be equal and opposite to the effect of the increases shown.

	Change in index %	Effect on equity AED'000	Effect on statement of income AED'000
31 December 2025			
Indicator			
Quoted equities and mutual funds	10%	1,395	139
Debt instruments classified at FVTPL	10%	382	382
Debt instruments classified at FVOCI	10%	5,693	-

	Change in index %	Effect on Equity AED'000	Effect on statement of income AED'000
31 December 2024			
Indicator			
Quoted equities and mutual funds	10	2,232	1,202
Debt instruments classified at FVTPL	10	746	746
Debt instruments classified at FVOCI	10	6,257	-

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Company is exposed to interest rate risk on its interest-bearing assets (debt securities, statutory deposits and bank deposits). The Company limits interest rate risk by monitoring changes in interest rates in the currencies in which its cash and interest-bearing investments are denominated.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework *(continued)*

(c) Financial risk management (continued)

(iii) Market risk (continued)

Interest rate risk (continued)

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Company's statement of profit or loss based on the interest-bearing financial assets and financial liabilities held at 31 December 2025.

Effect on statement of profit or loss due to change in base points is as follows:

	2025 AED'000	2024 AED'000
+ 50% change in base points	1,003	216
- 50% change in base points	(1,003)	(216)

(iv) Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, human error, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Company's operations.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

21 Risk management framework *(continued)*

(d) Insurance risk (continued)

Sensitivity of underwriting profit and losses

The underlying risk of any agreed insurance contract is the possibility that the insured event occurs and the level of certainty the insurer can project on any resulting claim. By the nature of an insurance contract, this risk is often random and the amount of payable claim even more unpredictable. Therefore, the Company applies the principle of probability across all pricing and provisioning. Despite this principle the risk that actual claims payments exceed the estimated amount of the insurance liabilities is still ever present due to the uncertainty of the frequency or severity of claims being greater than estimated. Whilst the Company applies the portfolio approach to understand its projected claims, events leading to actual claims vary and therefore profitability is impacted, either positively or negatively on an annual basis.

The Company has an overall risk retention level of 23% (*31 December 2024: 23%*) and this is mainly due to overall low retention levels in commercial lines. Despite these low retention levels on commercial lines, due to the unpredictability in events and their extreme volatility, large events stress the performance of the Company despite transferring risks to other parties. For all lines of business, the Company is adequately covered by excess of loss reinsurance programs to guard against any major financial impact.

The following tables present information on how reasonably possible changes in assumptions made by the Company with regard to underwriting risk variables impact product line insurance liabilities and profit or loss and equity before and after risk mitigation by reinsurance contracts held. The analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions might be correlated.

Capital risk management

The solvency regulations identify the required solvency margins to be held in addition to insurance liabilities. The solvency margins (presented in the table below) must be maintained at all times throughout the year. The Company is subject to solvency regulations which it has complied with during the year. The Company has incorporated in its policies and procedures, the necessary tests to ensure continuous and full compliance with such regulations.

The table below summarises the Minimum Capital Requirement, Minimum Guarantee Fund and Solvency Capital Requirement of the Company and the total capital held to meet these required Solvency Margins as defined in the regulations.

	31 December 2025 AED'000	31 December 2024 AED'000
Minimum Capital Requirement (MCR)	100,000	100,000
Minimum Guarantee Fund (MGF)	13,743	13,022
Solvency Capital Requirement (SCR)	22,464	25,016

MCR Solvency Margin – Surplus	11,541	11,266
SCR Solvency Margin – Surplus	89,077	86,249
MGF Solvency Margin – Surplus	97,798	98,243

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

22 Fair value of financial instruments

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

HAYAH Insurance Company P.J.S.C.

Notes to the financial statements

22 Fair value of financial instruments (continued)

Financial assets measured at fair value

<i>At 31 December 2025</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
	<i>AED'000</i>	<i>AED'000</i>	<i>AED'000</i>	<i>AED'000</i>
<i>At fair value through profit or loss</i>				
Quoted equities	13,951	-	-	13,951

	13,951	3,816	-	17,767
<i>At fair value through other comprehensive income</i>				
Quoted equities	1,392	-	-	1,392
Mutual funds	-	9,119	-	9,119
Quoted debt instruments	44,963	11,541	-	56,504
Private debt fund	-	-	422	422
	46,355	20,660	422	67,437
	60,306	24,476	422	85,204

<i>At 31 December 2024</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
	<i>AED'000</i>	<i>AED'000</i>	<i>AED'000</i>	<i>AED'000</i>
<i>At fair value through profit or loss</i>				
Quoted equities	12,021	-	-	12,021
Quoted debt instruments	3,668	3,789	-	7,457
	15,689	3,789	-	19,478
<i>At fair value through other comprehensive income</i>				
Quoted equities	1,231	-	-	1,231
Mutual funds	-	9,074	-	9,074
Quoted debt instruments	45,883	16,693	-	62,576
Private debt fund	-	-	1,148	1,148
	47,114	25,767	1,148	74,029
	62,803	29,556	1,148	93,507

For investment in private fund, the fair values are based on Net Asset Values (NAV) calculated by the respective fund managers. The valuation of this debt fund qualifies as Level 3 fair value measurement. There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements during the year. Except for the above, management considers that the carrying amounts of financial assets recognised in the financial statements approximate their fair values.

HAYAH Insurance Company P.J.S.C.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

Company Introduction

HAYAH Insurance Company P.J.S.C “HAYAH” is a public joint-stock company with a paid capital of 200 million dirhams and registered with the Central Bank of the UAE under registration number 83. The Company was established in August 2008 and is listed on Abu Dhabi Securities Exchange (ADX). It is subject to compliance with regulations issued by the Capital Market Authority (CMA) and the Central Bank of the UAE (CBUAE).

The Company’s headquarters is located in the capital, Abu Dhabi, and has a branch in the Emirate of Dubai.

The Company provides insurance and support solutions to individuals and institutions to help them manage unexpected risks by providing insurance products, where it provides a wide range of life and health insurance services.

1. A statement describing the measures adopted during 2025 to complete and enhance the Company’s corporate Governance framework, and how such measures were implemented.

- Statement of Commitment

The Board of Directors maintains an effective corporate governance framework that actively identifies, monitors, and addresses material governance matters impacting the Company’s ability to create sustainable value. The Board recognises its responsibility for overseeing governance arrangements and ensuring the integrity, transparency, and completeness of the Company’s annual corporate governance reporting.

During 2025, the Board continued its commitment to applying the Governance Code and Principles in line with the applicable Corporate Governance Regulation, embedding these principles across the Company’s governance culture, internal control environment, policies, and procedures. The Board remains focused on continuously enhancing the effectiveness of the governance framework to ensure its ongoing alignment with regulatory requirements, best practices, and the long-term interests of the Company and its stakeholders.

- Implementation of Corporate Governance rules

HAYAH is fully committed to having a corporate governance framework that is fully compliant with corporate governance requirements that are applicable to public joint stock companies in the UAE and consistent with the Corporate Governance Regulation & Standards for Insurance Companies issued by the Central Bank of the UAE (Circular No. 24/2022) and with the Securities and Commodities Authority’s Resolution No. (3/RM) of 2020 Concerning the Joint Stock Companies Governance Guide (as amended), as well as all other relevant Corporate Governance resolutions issued from time to time by the competent authorities and the international best practices in this regard.

HAYAH has implemented an internal governance structure with defined roles and responsibilities for every constituent of the system. The Company’s shareholders appoint the

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

Board of Directors, who in turn govern the Company. The Board has established committees for specific purposes to discharge its responsibilities in an effective manner, however the overall accountability for the responsibilities assigned to and discharged by the Committees lies with the Board. The Chairman provides overall direction and guidance to the Board.

The Board was assisted by various Board Committees, namely the:

1. Audit Committee
2. Risk Committee
3. Nomination and Compensation Committee
4. Investment Committee

Apart from the Board Committees, the Company operates through defined management and internal control functions responsible for key operational and oversight activities. The internal control framework consists of Compliance, Risk Management, Actuarial and Internal Audit functions. These functions are an important part of the overall governance structure. The role and responsibilities of the Board of Directors, its committees, and each of the internal control functions are set out subsequently in this report.

HAYAH took all steps required for application of the governance procedures from the date of implementation, It has also been committed to continuously following up on all necessary steps to develop and update governance procedures in line with the latest decisions issued by regulators as well as a commitment to local and global best practices, in particular , the company has taken the following steps during 2025:

- The Board has been made aware of the new corporate governance regulations, and they have reviewed and signed off on the company's plan to demonstrate full compliance.
- Review and updated the governance policies in accordance with governance manual and the action plan for effectiveness of those policies.
- The Company ensured compliance with applicable regulatory and statutory requirements and maintained transparency in its operations, including the timely and appropriate disclosure of financial statements.
- The Company is committed to make the Corporate Governance Report available to all shareholders and publish it through the usual means of publication prior to the announcement of the General Assembly's invitation by enough time, for the shareholders to review it.
- The company has whistleblowing policy in place that enables the employees to report potential violations in financial reports, internal controls or other matters while their rights are fully protected
- The company is committed to complying with the laws and regulations issued by Capital Market Authority, Abu Dhabi Securities Exchange, Central Bank of the UAE, previously the Insurance Authority, Health Authority, Labour Law, and other laws and regulations in the UAE due to the company's status as a public joint stock company listed in Abu Dhabi Securities Market and carries out its insurance business operations.
- Risk policies and procedures were created/updated, and the reporting structure for the Risk function was aligned with regulatory requirements.
- The Terms of Reference of the Board Committees were reviewed and updated to align with applicable regulatory requirements and governance best practices, and an annual

Corporate Governance Report 2025

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

Brief about the Board Members, their experiences, and qualifications

Mrs. Salama Amer Omar Saleh **Chairman of the Board**

Mrs. Salama Amer is an entrepreneur and senior management professional with over 20 years of cross-sector experience spanning investment, aviation, and hospitality. She possesses strong expertise in corporate strategy, business planning, support services, business intelligence and analytics, and revenue optimization. A results-driven leader, she has a proven track record of delivering profitable growth, developing effective business strategies, and leading impactful operational improvements.

Mrs. Salama has a Bachelor of Applied Science Major Business Information Technology (2003) from The Higher College of Technology.

Mr. Marwan Ibrahim Haji Nasser Abdulla Al Nasser **Vice-Chairman of the Board**

Mr. Marwan Ibrahim Haji Al Nasser is an influential Emirati businessman, serving as the founder, chairman, and managing director of MIN Healthcare Investment Group, a prominent U.A.E. investment firm specialising in healthcare, medical, and pharmaceutical fields. Under his leadership, MIN Healthcare has evolved from a single medical facility in 2009 to a comprehensive healthcare provider with a rapidly expanding presence. Marwan's career began with various government positions before he ventured into entrepreneurship and established MIN Healthcare.

The group now encompasses operational hospitals, over 10 medical centres, pharmaceutical distribution, and other healthcare support services across the U.A.E. Beyond business success, Marwan is dedicated to philanthropy, actively engaging in community welfare beyond healthcare. He has initiated numerous health-focused campaigns and initiatives, including CSR projects benefiting underprivileged communities. His efforts, including health screenings and awareness programs for workers, have significantly impacted lives across the U.A.E., promoting better health and well-being.

Mr. Mohamed Abdul Latif Kanoo **Member of the Board**

Mr. Mohamed Abdullatif Kanoo studied Economics and Political Science at the University of Texas at Austin and Monetary Economics at the American University in Washington, D.C. He is based in Abu Dhabi, where he oversees the business operations and the interests of the Kanoo family. In 2016, he took over the role of Deputy Chairman of the Kanoo Group. He holds senior executive positions in several other companies and directorships in several GCC-based companies. He is also the Chairman of the Charity Fund of Bahrain-based Abdul Rahman Kanoo Co. WLL.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

H.E Dr. Tariq Abdulqader Ibrahim Abdulqader Bin Hendi **Member of the Board**

His Excellency Dr. Tariq Bin Hendi is a Board Member at Astra Tech, the consumer arm of G42, and Chief Executive Officer of botim, its flagship platform. He is leading botim's transformation from one of the region's most trusted communication apps into a fintech-first, AI-native ecosystem, driving greater financial inclusion across the UAE and beyond.

Dr. Tariq previously held senior roles at G42, ADIO, Emirates NBD, Mubadala and Citi Group. He is currently a board member of 7X (formerly Emirates Post Group), Hayah PJSC, and UAE University. He holds a PhD in Economics from Imperial College London, Master's degrees from Columbia University and London Business School, and a bachelor's degree from Clayton State University.

Mr. Patrick Claude Choffel **Member of the Board**

Mr. Patrick Choffel served as the Chief Executive Officer of Oman Insurance Company (OIC), the largest Insurance Company in the UAE and the fourth largest in the Middle East, from September 2011 to May 2015. He led the company's strategy to revamp and retain its market leadership. Prior to joining OIC, Patrick served as AIG Regional President MEASA for ALICO based in Dubai. He had a long career with AIG in different key executive management positions across Europe, Africa, the Middle East, and Australia. He developed new markets, turned around ailing businesses, and managed risks. He has a master's degree in science from the University of Wyoming in the US and a diploma in business administration and finance from the Ecole Supérieure de Commerce in France. Additionally, Patrick has held leadership roles in several prominent insurance organizations around the world, such as: Petro Vietnam insurance (Hanoi), Star Health insurance (Chennai), Al Rajhi takaful (Riyadh), Solidarity Insurance (Bahrain), War Risk Pool (Bahrain), Arma Underwriting Agents (DIFC), Prevensure Brokers (Dubai).

Mr. Haisam Nizar Odeimeh **Member of the Board**

Mr. Haisam Odeimeh an accomplished financial executive with extensive experience in the banking and financial services sector. Currently serving as the Chief Executive Officer of Financial Services at Al Ramz Corporation PJSC. Prior to this role, he held positions as Managing Director & Deputy Chief Financial Officer at Al Hilal Bank PJSC and Head of Financial Services Department at KPMG in the Lower Gulf Region. Holds an MBA in Banking & Finance from Paris Sorbonne University Abu Dhabi, and is a Certified Public Accountant from AICPA, New Hampshire, USA.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

Mrs. Amna Obaid Khalifa Ahmed Al Zaabi **Member of the Board**

A proactive leader engaged in UAE government-owned strategic and business development projects, Amna's career spans over 18 years in several leadership positions and executive memberships, including board seats with publicly listed companies. Her previous Board and Audit Committee memberships include Agthia and Arkan. Prior to joining ADGM she served as a Senior Strategic Projects Manager within the CEO's office at ADQ. Amna's career has encompassed the development of international strategic partnerships and project management, collaborating with international partners from Europe, Asia, and Africa. She holds a master's degree in Strategy and Leadership from London Business School and a Bachelor of Science degree in Business Administration from Zayed University. Additionally, she has completed leadership programs at Harvard Publishing School and the Institute of Leadership Management. Her sense of purpose and integrity governs the way she conducts herself in business, which is one of the hallmarks of her reputation. Amna's passion going forward is to contribute to the UAE's social and economic development and to impact community development programs that focus on the growth of future generations.

Mr. Mabkhoot Taleb Nehais Aamer Almenhali **Member of the Board**

Mabkhoot Almenhali is a finance executive and CPA offering more than 25 years of experience building, leading and advising companies through complex restructuring, international expansion, and capital market transactions. Progressive experience with repeated success in capital and debt markets, merger and acquisitions, turnaround, and IPO readiness. Almenhali served as a group CFO of SENAAT until June 2020 and previously he was the CFO of NPCC, a leading Oil & Gas EPC contractor based in Abu Dhabi. Mr. Mabkhoot is an independent (non-executive) Boards and Audit Committees member and previously served as a Board and AC member of the following SENAAT/ADQ subsidiaries, ARKAN, Ducab, NTS and ADNE.

Mr. Samer Abdul Rahman Katerji (From 26/04/2024 to 20/02/2025) **Member of the Board**

Mr. Samer is an experienced investment banker with a demonstrated history of working in the financial services and investments industry for over 22 years. Throughout his career, he has led the formulation and structuring of complex corporate finance transactions across a multitude of industries and regional markets. He is skilled in Mergers & Acquisitions (M&A), Strategic Financial Advisory, Capital Optimization and Restructuring as well as structuring of Capital Markets financing instruments, both in equity and debt products. Prior to this role, Samer led the Financial Institutions and Financial Sponsors advisory practice for Citigroup Global Markets in the Middle East and played a key role in the development of the franchise in the region. He has also held key positions at SHUAA Capital in Dubai, PrimeCorp Finance and Middle East Capital Group, in Beirut. Samer holds a master's degree in business administration, bachelor's degree in business administration and bachelor's degree in science – Biology from the American University of Beirut. Samer is also a board member of Air Arabia PJSC and member of GCC Board of Directors Institute.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

3.2 A statement indicating the percentage of female representation on the Board during 2025.

The composition of the Board of Directors in 2025 reflects the organization's commitment to fostering diversity and inclusivity. Two of the Board are female directors, accounting for approximately 22% of the total membership.

Significantly, one of the female directors holds the position of Chairperson, underscoring the organization's dedication to promoting gender diversity in key leadership roles and advancing equitable representation at the highest levels of governance.

3.3 Statement of the bonuses, allowances, and fees received the Board members

3.3.1 Total remuneration paid during 2024.

In accordance with the provision of article (60) of HAYAH's Articles of Association, remuneration of the members of the Board of Directors shall be a percentage of the net profit, and the Company may pay additional expenses, fees or remuneration or monthly salary as prescribed by the Board of Directors to any member if such member had worked in any committee or made special efforts.

An amount shall be provided for distribution among the shareholders as the first share of the profits determined by the ordinary general assembly upon a proposal of the General Assembly, provided that such amount shall not be more than (5%) five percent of the value of the paid-up share value. However, if the net profits do not permit the distribution of such shares, such amounts shall not be claimed from the profits of the following years. A percent, not more than (10%), ten percent shall be provided from the balance for remuneration of members of the board of directors, and the general assembly shall determine the value thereof each year.

Based on that, the proposal for the remuneration of Board members was presented to the Annual General Assembly meeting on 18 April 2025, set at AED 100,000 (one hundred thousand dirhams only) per member, with two members abstaining from receiving the remuneration: Mrs. Salama Amer Omar Saleh (Chairperson) and Mr. Mohamed Abdulatif Kanoo (Board Member) consequently, the total remuneration amounted to AED 600,000 (six hundred thousand dirhams only). The Annual General Assembly approved by majority the proposal of the Board of Directors to remunerate the members for the year amounting of AED 100,000 (one hundred thousand dirhams only) per member with two members abstaining from receiving the remuneration.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

3.3.2 Total proposed remuneration for 2025, to be submitted to the Annual General Meeting for approval.

There will be no remuneration distributed to the members of the Board of Directors for 2025.

3.3.3 Allowances paid for attending Board committee meetings during 2025 as per the following:

No	Name	Committee Name	Allowances for attending sessions of committees of the Board of Directors		
			Allowance Value	Number of Meeting during 2025	Number of Meeting attended by the member
1	Mr. Marwan Ibrahim Haji Nasser Abdulla Al Nasser	Investment Committee	5,000	3	3
2	Mr. Mabkhoot Taleb Nehais Aamer Almenhali	Audit Committee	5,000	5	5

3.3.6 Numbers of the resolutions passed by Circulation by the Board of Directors during the Fiscal Year 2025, along with their corresponding dates.

In the First Quarter 2025 – 3 February 2025: The Board discussed and approved administrative and operational business matters on the agenda that do not affect the share price.

In the Second Quarter 2025 – 22 May 2025: The Board discussed and approved administrative and operational business matters on the agenda that do not affect the share price.

In the Third Quarter 2025 – 13 August 2025: The Board discussed and approved the Financial Results for the period ending 30 June 2025 (FS Q2 2025).

The above resolutions were made to ensure timely and efficient decision-making in matters requiring immediate attention during these periods.

4. Board Committee

4.1 Audit Committee

The Board of Directors has formed the Audit Committee from the members of the Board of Directors, which aims to support the Board of Directors in carrying out its responsibilities through the oversight of the financial reporting process and the integrity of the publicly reported results, adequacy and effectiveness of internal control and risk management systems and supervision of effectiveness, performance, and independence of the internal and external auditors.

4.1.1 A declaration by the Chair confirming responsibility for the Committee's operating framework, review of its procedures, and assurance of its effectiveness.

I **Mabkhoot Taleb Nehais Aamer Almenhali** in the capacity as Audit Committee's Chairman, acknowledge the responsibilities of the Committee, review its work mechanisms and ensure the application of the provisions of Article No. (60) and Article No. (61) of the Authority's Board Chairman's Resolution No. (3/ R.M) of 2020 issued by Capital Market Authority (CMA), regarding the Standards of Institutional Discipline and Governance of Public Shareholding Companies. I verify the commitment of the Company and its employees to the provisions of applicable laws, regulations, and decisions that regulate its work, policies and internal procedures.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

4.1.2 A statement setting out the names of members, their competencies, and assigned responsibilities.

The Committee consists of Three members, namely, **Mr. Mabkhoot Taleb Nehais Aamer Almenhali** as the Chairman, **Dr. Tariq Abdulqader Ibrahim Abdulqader Bin Hendi** and **Mr. Haisam Nizar Odeimeh** being the members have sufficient knowledge, educational qualification, and experience in finance, investment, accounting, and auditing.

- The key responsibilities of the Audit Committee are:

- The responsibility for the selection, appointing, remuneration, oversight, and termination, where appropriate, of the external auditor, subject to ratification by the Board and shareholders. The external auditor shall report directly to the Committee.
- Make a determination at least once each year of the external auditor's independence, including
 - Determining whether the performance of any non-audit services compromised its independence.
 - Obtaining from the external auditor a written report listing any relationships between the external auditor and the Company or with any other person or entity that may compromise the auditor's independence.
 - Review and discuss with the external auditor the scope and results of its audit, any difficulties the auditor encountered, including any restrictions on its access to requested information, and any disagreements or difficulties encountered with management.
 - Review and discuss each annual and quarterly financial statement of the Company with management and the external auditor, including judgments made in connection with the financial statements.
 - Review, discuss, and make recommendations regarding the selection, appointment, and termination, where appropriate, of the Head of Audit and the budget allocated to the internal audit and compliance function, and monitor the responsiveness of management to the committee's recommendations and findings.
 - Review and discuss the adequacy of the Company's internal auditing personnel and procedures, its internal controls and compliance procedures, any risk management systems, and any changes in those.
 - Oversee the risk assessments performed by the management, internal and external auditors.
 - Oversee the Company's compliance with legal and regulatory requirements.
 - Review and recommend to the Board updates to the Company's corporate governance framework and related policies and oversee their periodic review in line with regulatory requirements.
 - Review and discuss possible improprieties in financial reporting or other matters and ensure that arrangements are in place for independent investigation and follow-up regarding such matters.

4.1.4 The Audit Committee's annual report.

According to Article 61/2 of the Joint Stock Companies Governance Guide, the Audit Committee has submitted its annual report outlining its key activities, signed by the Audit Committee chairman.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

- Significant matters in relation to financial statements

The audit committee reviewed the significant matters related to the following:

- Insurance liabilities and reserves – Seek external opinion from independent actuaries related to key estimates, adequacy of reserves.
- Revenue recognition – Review of revenue figures shared by the management and seek opinion from the external auditors related to recognition of revenue, ensuring that they were align with the financial reporting standards.
- Claims handling – Review claims performance metrics, such as claims loss ratios and settlement timeframes. Further, seek explanation from the management related to significant or unusual claims settlements and adequacy of underwriting processes.
- Regulatory Compliance – Review periodic compliance reports and ensure timely resolution of any regulatory findings.
- Solvency and Capital adequacy – Evaluate the capital adequacy ratio to ensure compliance with regulatory requirements and obtain insights from the actuary and external auditors regarding its alignment with regulations, as well as potential strategies to further enhance it.
- Investments – Assess the valuation and any impairment of the investment portfolio to ensure compliance with regulatory requirements and confirm that the portfolio is appropriately diversified to mitigate risks and safeguard financial stability. Further review the impact of interest rate changes, inflation, and macroeconomic factors on the underlying financial assets.

Independence and effectiveness of the external audit process

The audit committee reviews the independence and the effectiveness of the external audit process by:

- Independence of external auditor – Seeking an explanation from the management and external auditors related to the non-audit work if any, assigned to the external auditors. During 2025, no non-audit work was assigned to the external auditor of the Company.
- Effectiveness of external audit process – Seeking an explanation and challenging the external auditors about the material risks that the Company is facing. Such material areas include key assumptions and estimates taken by the management for its reserves and claims, adequacy and completeness of key financial information reported in the financial statements.
- Appointment and reappointment of external auditors – Reviewing the tenure of the existing external auditor, its performance, independence and its compliance with the regulatory limits. The appointment of the external auditor is based upon the auditor's expertise, fees and audit approach.

The appointment and reappointment of external auditors

Audit Committee's recommends the Board to appoint or reappoint the external auditor and the same is recorded in the minutes to the Audit Committee's meeting.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

Independence of the external auditor, providing services other than auditing the company's accounts

During 2025, no non-audit work was assigned to the external auditor of the Company.

Deficiencies or weaknesses in the internal controls or risk management.

The Audit Committee regularly reviews the status of outstanding internal audit issues along with the risks assessment report submitted on an annual basis. The Audit Committee seeks explanation from the management for any delays in the implementation of recommended internal controls.

Review of high and medium risk reports

The internal auditor presents the internal audit report(s) detailing the risks associated with the lack of internal controls within the key processes. The audit committee reviews each audit issue, along with the risks associated with the control deficiency and seek the management to address them appropriately.

Corrective treatment plan in the event of fundamental deficiencies

The management is responsible for providing a detailed action plan to the internal auditor to address each audit issue identified. If no action plan is submitted, the internal auditor will report this matter during the audit committee meeting.

4.2 Nomination and Compensation Committee

The Board of Directors has formed the Nomination and Compensation Committee, which aims to support the Board of Directors in performing its oversight responsibilities in the nomination and independence of the Board members and the integrity of the Company strategy related to the rewards, benefits, incentives, and salaries.

4.2.1 A declaration by the Chair confirming responsibility for the Committee's operating framework, review of its procedures, and assurance of its effectiveness.

I **Amna Obaid Khalifa Ahmed Alzaabi** in the capacity as Nomination and Compensation Committee's Chairperson, acknowledge the responsibilities of the Committee, review its work mechanisms and ensure the application of the provisions of Articles No. (9), (10), (22) and (59) of the Authority's Board Chairman's Resolution No. (3 / R.M) of 2020 issued by Capital Market Authority (CMA), regarding the Standards of Institutional Discipline and Governance of Public Shareholding Companies. I verify the commitment of the Company and its employees to the provisions of applicable laws, regulations, and decisions that regulate its work, policies and internal procedures.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

4.2.2 A statement setting out the names of members, their competencies, and assigned responsibilities.

The Committee consists of Three members, namely, **Mrs. Amna Obaid Khalifa Ahmed Alzaabi** as the Chairman, **Mr. Mabkhoot Taleb Nehais Aamer Almenhali** and **Mr. Patrick Claude Franklin Choffel** being the members have sufficient knowledge, educational qualification, and experience in finance, investment, accounting, auditing and Human Resources.

- The key responsibilities of the Nomination and Compensation Committee are:

- Whenever a vacancy arises (including a vacancy resulting from an increase in Board size), the Committee recommend to the Board a person to fill the vacancy either through appointment by the Board or through shareholder election.
- In performing the above responsibilities, the Committee consider any criteria approved by the Board and such other factors as it deems appropriate. These may include judgment, specific skills, experience with other comparable businesses, the relation of a candidate's experience with that of other Board members, and other factors.
- The Committee also consider all candidates for Board membership recommended by the shareholders and any candidates proposed by management.
- The Committee identify suitable personnel qualified to fill the vacancies on any committee of the Board and recommends his/her appointment in the Board or any of its committees, to the Board.
- Assuring that plans are in place for orderly succession of senior management.
- Make recommendations to the Board from in the structure and job descriptions of the officers including the CEO and prepare terms of reference for each vacancy stating the job responsibilities, qualifications needed and other relevant matters.
- Recommend persons to fill specific officer vacancies including CEO considering criteria such as those referred to above.
- Design a plan for succession and replacement of officers including replacement in the event of an emergency or other unforeseeable vacancy.
- Consider, and make specific recommendations to the Board on, both remuneration policy and individual remuneration packages for the CEO and other senior officers.

4.3 Insider Trading Committee

HAYAH Insurance Company is fully aware of the governance requirements applicable to Public Joint Stock Companies and is committed to complying with these rules and regulations. To support this objective, the Company has established an Insider Trading Committee at the Management level responsible for overseeing dealings in the Company's securities by insiders, including members of Executive Management and employees of the Company, in accordance with applicable regulatory requirements. The Committee operates within the Company's governance framework and reports through the appropriate governance channels to ensure Board oversight.

4.3.1 A Declaration by the Chair Confirming responsibility for the Committee's operating framework, review of its procedures, and assurance of its effectiveness.

I **Mohamed Seghir** in the capacity as Insider Trading Committee's Chairman, acknowledge the responsibilities of the Committee, review its work mechanisms and ensure the application of the provisions of Articles No. (33) of the Authority's Board Chairman's Resolution No. (3 / R.M) of 2020 issued by Capital Market Authority (CMA), regarding the Standards of Institutional Discipline and Governance of Public Shareholding Companies. I verify the commitment of the Company and its employees to the provisions of applicable laws, regulations, and decisions that regulate its work, policies and internal procedures.

4.3.2 A statement setting out the names of members, their competencies, and assigned responsibility.

The Committee consists of Three members, namely, **Mr. Mohamed Seghir** as the Chairman, **Mrs. Hana Alnuaimi** and **Ms. Manal Tarchichi** being the members have sufficient knowledge, educational qualification, and experience.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

- The key responsibilities of the Insider Trading Committee are:

- Follow-up and supervision of insiders' trading and their holdings, maintain the registers, and submit periodic statements and reports to the Market.
- Prepare a special and comprehensive register for all insiders, including persons who could be considered as insiders on a temporary basis and who are entitled to or have access to inside information about the Company prior to publication. The record shall also include prior and subsequent disclosures of the insiders.
- Informing the concerned persons on their status as soon as he considered an insider and require them to sign the formal declarations which prepared for that purpose.
- Informing the Insiders about the insider trading prohibition period determined by the regulator.

4.3.3 A summary of the activities undertaken during 2025.

The committee held a meeting on 24th September 2025, where the members of the committee reviewed the updated register of the insiders, review the Shareholders list and followed up on the blackout period determined by the Abu Dhabi Securities Market

7. Board Performance Evaluation

Assessment of the Board of Directors: Assessment of the Board, its Committees and Executive Management

7.1 The Annual Assessment of the Board of Directors, its members and Committees.

The Board of Directors, its members, and committees undergo an annual performance evaluation to enhance corporate governance and effectiveness. This assessment is overseen by the Nominations and Remuneration Committee or the Chairman, with support from the Board Secretary. An independent external review is also conducted at least once every three years to assess leadership, decision-making, oversight, and strategic alignment.

In 2025, the Board Secretary played a central role in facilitating the assessment process and implementing enhancement measures under the Chairman's supervision. The evaluation results contribute to governance improvements and the development of Board members, while taking necessary actions to enhance overall performance. Furthermore, the evaluation ensures the effectiveness, transparency, and coordination of Board committees

7.2 An evaluation of the performance of the Board, its members, and its committees

The Board of Directors upholds the highest standards of governance and transparency. To reinforce this commitment, an independent professional firm—without any affiliations or Interests with the company, its Board members, or executive management—is engaged every three years to conduct a comprehensive evaluation of the Board's performance, individual members, and committees.

The company ensures that the evaluation criteria are aligned with governance best practices to provide accurate insights that drive organizational improvement and enhance confidence among shareholders and stakeholders. In 2025, an internal evaluation was conducted to support ongoing performance enhancement and strengthen governance standards. The Board remains committed to adhering to the necessary procedures and regulatory requirements to engage an independent professional firm for future evaluations.

7.3 An assessment of the performance of the Executive Management

The Executive Management including the employees are subject to an annual performance evaluation aimed at enhancing organizational effectiveness, management efficiency, and the implementation of sound governance practices. The evaluation process is managed by the Human Resources Department, under the supervision of Chief Executive Officer, to

assess leadership effectiveness, decision-making capabilities, accountability, and alignment with the Company's strategic objectives.

During 2025, the Chief Executive Officer along with Human Resources Department played a central role in coordinating the performance evaluation process and monitoring the implementation of improvement measures. The evaluation outcomes contribute to identifying development needs, enhancing the competencies of Executive Management, and taking the necessary actions to improve overall performance and operational effectiveness.

In accordance with the Corporate Governance Regulations issued by the Capital Market Authority (CMA), the results of the Executive Management and employees performance evaluation are referred to the Nominations and Compensation Committee for review and approval, or to provide any recommendations it deems appropriate. In regard to the CEO evaluation and performance it will be conducted under the supervision of the Nomination and Compensation Committee which raised the result to the Board of Director for final review and decision.

8. Organizational Structure and Executive Management

8.1 The Company's organizational structure.

Fair value reserve	93,000

Table 19: Financial reserves – 2025

10. Internal Control System

The objective of the internal control system is to assist the Board and the Executive Management in protecting the assets, reputation, and sustainability of the Company by providing independent and objective assurance activities designed to add value and improve the Company's operations. Also, it helps the Company meet its objectives by bringing a systematic, disciplined approach to challenge Executive Management and evaluate the effectiveness of risk management, control, and governance processes.

10.1. A declaration by the Board confirming responsibility for the Internal Control System, review of its operating framework, and assurance of its effectiveness.

In accordance with the Board Charter and the Chairman of the Authority's Board of Directors' Decision No. (3/Chairman) of 2020 concerning the Approval of the Joint Stock Companies Governance Guide, issued by the Chairman of the Board of Directors of the Capital Market Authority, the Board of Directors confirms its responsibility for the Company's internal control system. The Board affirms that it has established, maintained, and periodically reviewed an effective internal control framework commensurate with the nature and scale of the Company's activities. The Board also confirms its ongoing oversight of the effectiveness of internal controls and its commitment to taking corrective actions, where necessary, to ensure compliance, safeguard assets, and support the achievement of the Company's objectives.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

10.2. A statement setting out the name, qualifications and date of appointment of the Head of Control Department.

Mr. Usama Zulfiqar
Position: Head of Audit
Nationality: Pakistani
Appointment Date: 28/05/2017

Mr. Usama Zulfiqar holds more than 17 years of professional experience, which includes 13 years of dedicated internal audit experience in insurance sector within the Gulf region. He started his career with HAYAH Insurance Company "HAYAH" in 2017. Before joining HAYAH, he was leading the internal audit department of one of the largest assurance firms in Bahrain. Majority of his experience includes performing internal audits of conventional and takaful insurance companies, reinsurance, brokers and third-party administrators. Mr. Usama Zulfiqar is a Chartered Certified Accountant (FCCA), a Certified Internal Auditor (CIA) and a Certified Information System Auditor (CISA).

10.3. A statement setting out the name, qualifications and date of appointment of the Compliance Officer.

The Company maintains a strong commitment to regulatory compliance and to the effective management of money laundering (ML), terrorist financing (CF), and sanctions-related risks.

The Compliance function operates as an independent second-line control and is responsible for overseeing the implementation and ongoing effectiveness of the Company's compliance framework, including Anti-Money Laundering (AML), Counter-Terrorist Financing (CTF), sanctions compliance, and regulatory obligations. The Money Laundering Reporting Officer (MLRO) is responsible for monitoring compliance with applicable regulations, identifying and investigating suspicious activities, and reporting to the relevant authorities where required.

The Company has implemented a compliance monitoring framework supported by appropriate tools and structured reporting mechanisms. Regular compliance reports are submitted to Senior Management and the Board Audit Committee, providing oversight on regulatory compliance status, key risk areas, remediation progress, and material regulatory developments.

Mrs. Hana Alnuaimi serves as Chief Compliance Officer and Money Laundering Reporting Officer. She holds a bachelor's degree in international business administration and a Master of Laws (LL.M.) in Financial Crimes and Money Laundering and has over ten years of experience in senior compliance roles within the banking and financial services sector.

Mrs. Hana Alnuaimi
Position: Chief Compliance Officer
Nationality: UAE
Appointment Date: 01/08/2017

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

Mrs. Hana Alnuaimi, an Emirati national, was appointed in 2017 as the Head of Compliance, and AML holds a BA in International Business Administration from Skyline University College in Sharjah and a master's in law with a concentration in Financial Crimes and Money Laundering from the University of Dubai. She has more than ten years of experience in the banking sector and has held various positions at HSBC, Abu Dhabi Commercial Bank, and First Abu Dhabi Bank.

10.4. A statement describing how material issues identified by the Internal Control Department, or disclosed in reports and annual statements, were addressed.

The Internal Control Department deals with the potential problems faced by the Company through the following:

- The Head of Audit has a direct line with the Audit Committee Chairman. He puts in place an annual audit plan for internal control based on the assessment of internal risks and adequacy of controls, and its performance is officially monitored, and a report is submitted to the Audit Committee.
- The Board of Directors acknowledges their responsibility for the Company's internal control system, its functioning and ascertaining its effectiveness by establishing the assessment of risk management procedures and applying the rules of governance therein properly, and verifying the commitment of the Company and its employees with laws, regulations, and decisions in force that regulate its work, internal policies and procedures, and review of financial statements that are presented by the Company's senior management and used in preparing the financial statements.

10.5. A statement indicating the number of internal control reports submitted to the Board during 2025.

In 2025, The Internal Control Department issued two reports, and the Company did not face any major problems.

11. A statement detailing violations committed during 2025, including their causes and the remedial measures taken to prevent recurrence.

During 2025, regulatory inspections resulted in fines totaling AED 140,000, relating to non-compliance with certain requirements governing health insurance regulation and regulatory reporting.

The Company has taken corrective actions, including strengthening oversight of marketing activities and enhancing internal financial reporting processes, to prevent recurrence.

12. A statement of cash and in-kind contributions made by the Company during 2025 to community development and environmental initiatives.

The company did not make any contributions in 2025.

Table 25: Emiratization percentage trend – 2023–2025

13.12. A statement of innovation-related projects and initiatives implemented or under development by the Company's during 2025.

Product innovation and proposition development

During 2025, HAYAH expanded its product offering across life, health, and savings through the introduction of several new solutions aimed at supporting our mission to empowering futures. Key initiatives included:

- Health Protect, featuring automated underwriting capabilities enabling policy issuance within two minutes, significantly enhancing operational efficiency and customer experience.
- Launch of new savings propositions such as Kids Saver and Retirement Saver, supporting individuals to achieve their long-term savings goals.
- Development of Whole of Life coverage, representing a milestone as one of the first offerings of its kind by a local insurer in the region.

Corporate Governance Report 2025

HAYAH Insurance Company (P.J.S.C)

- Introduction of Increasing Term Insurance, designed to address the needs of younger customer segments through more accessible pricing structures and evolving coverage levels.

Value-added services and strategic partnerships

HAYAH continued to strengthen its ecosystem approach through partnerships aimed at bringing best-in-class solutions to the market and extending protection beyond traditional policy structures. Notable initiatives included:

- Launch of an International Private Medical Insurance (IPMI) product in partnership with APRIL, a global health provider
- Introduction of Life After Me, a digital legacy planning solution supporting policyholders in long-term financial and estate planning
- Strategic collaboration with Peko, enabling corporates and employees to access insurance and savings solutions directly through an HR technology platform, improving accessibility and engagement

Market engagement through leading initiatives

In addition to providing insurance and savings solutions, HAYAH launched and expanded several market-facing initiatives to strengthen its positions as industry thought leader and support financial education across the UAE and MENA region:

- Jalsa, established as a recurring platform to engage corporate stakeholders, distribution partners, and industry participants, fostering dialogue around insurance, pensions, and long-term financial wellbeing.
- Launch of HAYAH Academy, a structured educational initiative designed for partners, corporate leaders and the wider ecosystem, aimed at strengthening financial literacy and familiarity with insurance-related products and solutions.
- Development of HAYAH Studio (currently under development), a pad cats-based platform intended to engage the wider market through expert discussions on protection, insurance, and savings.
- Development of the Rihla project (currently under development), a market intelligence initiative focused on insurance, health, life, and artificial intelligence, aimed at increasing awareness, sharing expertise, and providing insights to the wider industry.

Strong Regulatory Framework

Message from our CEO

I am pleased to introduce HAYAH's Sustainability Report, a reflection of our commitment to creating a sustainable future for all. Sustainability is not just a buzzword for us at HAYAH; it's a guiding principle that influences every facet of our operations.

In a world facing unprecedented challenges, from climate change to social inequalities, businesses must step up and be part of the solution. At HAYAH, we believe that sustainability is not merely an obligation; it's an opportunity to make a positive impact on the communities we serve and the planet we call home.

Our sustainability journey encompasses several key pillars:

1

Environmental Responsibility

We recognize the urgency of environmental conservation. By implementing eco-friendly practices, reducing our carbon footprint, and investing in renewable energy, we are striving to be a responsible steward of our planet.

2

Financial Inclusion

True financial security can only be achieved when it is accessible to all, regardless of background or income. We are dedicated to promoting financial literacy and providing inclusive insurance and savings solutions that empower individuals to secure their financial futures.

3

Ethical Governance

Integrity is the foundation of our business. We maintain the highest ethical standards in all our operations, from data privacy to corporate governance, ensuring that our stakeholders' trust is well-placed

4

Community Engagement

We understand that our success is intertwined with the well-being of the communities we operate in. Through community outreach programs, educational initiatives, and partnerships, we aim to uplift and empower those around us

As we navigate the complex landscape of sustainability, we recognize that we cannot achieve these goals alone. Collaboration is key, and we are committed to working with our partners, customers, and employees to create a more sustainable future.

I want to express my gratitude to the HAYAH team, whose dedication and innovation drive our sustainability efforts. Together, we are pioneering a path toward a more resilient and sustainable society.

In closing, I invite you to explore this report to learn more about our sustainability initiatives and their impact. Together, we can build a future where financial security, environmental responsibility, and social progress go hand in hand.

Mohamed Seghir
Chief Executive Office

Key performance highlights 2025

Driving financial resilience through disciplined growth

HAYAH registered a net profit of AED 1.7 million in 2025, compared to a net profit of AED 4.6 million in 2024.

HAYAH uplifted the game by gearing up in terms of writing new business, which is evident from an extraordinary increase in business volume, despite tough competition in the market. We registered a net underwriting income of AED 29.7 in 2025 as compared to a total net underwriting income of AED 26.1 million in 2024, representing a favorable increase of 13.5%.

The total operating costs also increased by 19% with controlled expenditures on administration and related costs. The operating costs were optimally managed.

About the report

Aligned with ADX ESG guidance and national sustainability priorities

We are pleased to present our sustainability report that gives an overview of the timeline from 1 January 2025 to 31 December 2025.

While we issue this report we demonstrate our commitment towards ADX initiative to drive sustainability in alignment with UAE national vision 2021, Abu Dhabi Economic Vision 2030 and national & global efforts on adopting sustainable development goals (SDG) through all the activities in business value chain.

HAYAH aims to integrate with ADX strategy and listed companies alike to reinforce economic growth, providing a sustainable trading atmosphere and motivating the business community to adopt socially sustainable practices.

This report is prepared in reference to ADX ESG Disclosure Guidance and Global Reporting Initiative (GRI). Based on such references, this report includes the areas which are material to HAYAH's business model.

1

Sustainability

Stakeholder engagement

Building meaningful partnerships with key stakeholders

This section presents stakeholders that HAYAH views as pivotal and aims to engage with them on a more regular basis.

Our deeper understanding of the internal & external stakeholders is a result of our close coordination and consultations with them. Building on their perspectives and opinions is our strength in materiality assessment.

HAYAH focus on continuous improvement of the stakeholder engagement process and understand that it is critical for success. This close coordination and engagement enables us to operate sustainably and meet all our stakeholders' expectations & concerns.

Stakeholder engagement

Our stakeholder ecosystem and engagement channels

Materiality assessment

Prioritizing topics that matter most to our business and stakeholders

Based on our ongoing stakeholder engagement, we have concluded our materiality assessment with the identification of material topics which remained consistent with prior years.

We believe this consistency would enable us to put our contribution to sustainable development goals.

We also referenced Global Reporting Initiative to align with best practices.

Our approach to materiality assessment was primarily aimed at the identification of material topics which are more relevant to us in terms of our business impact and at the same time hold sufficient importance to our stakeholders.

1. Governance, Transparency & Anti Corruption

2. Data Privacy and Security

3. Climate Risk and Energy Management

4. Digitalization Initiatives

5. Emiratization

6. Occupational Health and Safety

6. Diversity and Equal Opportunity

7. Social Impact and CSR

8. Sustainable Procurement Practices

Materiality assessment

Prioritizing topics that matter most to our business and stakeholders

- Governance, Transparency & Anti Corruption
- Data Privacy and Security
- Climate Risk and Energy Management
- Digitalization Initiatives
- Emiratization
- Occupational Health and Safety
- Diversity and Equal Opportunity
- Social Impact and CSR
- Sustainable Procurement Practices

Alignment with Sustainable Development Goals

Contributing to global sustainability priorities

Our sustainability efforts are in alignment with universal priorities and the United Nations Sustainable Development Goals (SDGs).

This would position us to contribute to sustainable development of our economy.

We recognize our role to deliver meaningful contributions to national and international efforts on sustainability priorities and we have aligned our sustainability plans and efforts to support these goals

2

Governance & risk management

Governance, transparency & anti-corruption

Embedding ethics, integrity and accountability across operations

As our business is to protect people, we use effective governance criteria that allow our operations to run smoothly with an integrated system of policies and mechanisms.

HAYAH is committed to:

1. Conducting its business in accordance with the highest ethical standards;
1. Ensuring transparency, integrity, and accountability across all business operations;
2. Maintaining a high level of corporate governance;
3. Respecting applicable laws and regulations;
4. Serving stakeholders in an ethical and responsible manner, and;
5. Implementing responsible business practices to earn and maintain stakeholder's trust.

The committees

Driving accountability, performance, and risk oversight

Bridging a link between the Board of Directors, executive management, shareholders, and other stakeholders HAYAH's Corporate Governance Report serves as the main tool for transparency and interaction with the public; bringing governance to the attention of the public at large.

HAYAH ensures independence of its Board of Directors by segregating roles of CEO and BoD Chairman. Nine members make up the Board of Directors. All board members, including the Chairman, are non-executive and 6 board members, including the Chairman, are independent which comprise 88% of overall Board composition.

➤ Four committees assist the Board of Directors to effectively manage company affairs and ensure a more robust management approach.

➤ Each committee is governed by its own operating procedures with reference to governing meetings, meeting quorum and decision making.

Audit committee

Ensuring financial integrity and effective risk oversight

The Audit Committee's responsibilities include:

- Review the effectiveness of the Company's internal control and risk management frameworks.
- Review developments that may significantly affect the risk profile or operations of the Company.
- Selection, appointing, remuneration, oversight and termination where appropriate of the external auditor, subject to ratification by the Board and shareholders.
- Ensuring external auditor's independence.
- Review and discuss with the external auditor the scope and results of its audit.
- Review the soundness and integrity of the financial statements.
- Selection, appointment and termination where appropriate of the Head of Internal Audit and monitor management's responsiveness to the committee's recommendations.
- Oversee the Company's compliance with legal and regulatory requirements.

All the Audit Committee members are well-versed in finance, investment, accounting and human resource management.

Nomination and Compensation committee

Promoting fair leadership structures and performance alignment

The Nomination and Compensation Committee's responsibilities include:

- Develop a policy to apply for Board and Executive administration membership, aiming to consider gender diversity within the formation and encourage women through incentive and training programs and benefits.
- Organize and follow up the procedures for applying for membership of the Board; the Committee shall ensure that no person previously convicted of any offence affecting honour or honesty is nominated for such membership.
- Ensure the independence of independent members on an ongoing basis.
- Review the structure of the Board and make recommendations regarding possible changes.
- Prepare and review the policy on granting rewards, benefits, incentives, and salaries to the Board members and the staff therein on an annual basis. The Committee shall ensure that the rewards and benefits granted to senior executive administration are reasonable and commensurate with the performance of the Company.

... ► Aims to support the Board of Directors in ensuring the integrity of the Company strategy related to the rewards, benefits, incentives, and salaries.

Investment committee

Overseeing disciplined and strategic investment decisions

The Investment Committee's responsibilities include:

- Review and submit for Board approval a written investment policy.
- Review all risk limits and exposures in the investment activities on a regular basis.
- Review the implementation of the Policy on a quarterly basis.
- Review the Policy at least once a year.

Reviewing and adopting the investment policy as well as ensuring its compatibility with the investment strategy.

Risk committee

Monitoring enterprise risks to protect long-term value

The Risk Committee's responsibilities include:

- Approve and review the Risk Appetite Framework (RAF) in order to ensure an acceptable level of risks that the Company is willing to accept with respect to conducting the business.
- Report key risks and results of risk management to the Board of Directors regularly and promptly after all concerned significant events related to risk management to the Board of Directors.
- Approve the risk management policies.
- Prepare detailed reports on the level of risk exposure and recommended procedures for managing such risks, along with submitting them to the Board of Directors.
- Review any matters raised by the Audit Committee that may affect the Company's risk management.
- Provide a second opinion on the company's strategic topic and project.

- ▪ ► Aims to support the Board in supervising the company's risk management framework and evaluate the effectiveness of the framework and mechanisms of identifying and monitoring the risks that threaten the Company.

3

Customer focus

Data privacy and security

Safeguarding customer data through robust protection frameworks

HAYAH is committed to maintaining the privacy and retention of data obtained during its business activities and complying with applicable laws and regulations regarding the processing of Personal and Sensitive Personal Data and data retention.

The Data Privacy control framework follows HAYAH's model of the ***“three lines of defense”***:

- The management (*the first line of defense*) is responsible for ensuring the data handling procedures meet local requirements and are consistent with this Policy.
- The Data Privacy Officer (*the second line of defense*) supports the management in developing and implementing adequate procedures, safeguards, and controls to ensure local requirements and the requirements of this Policy are met.
- Internal Audit (*the third line of defense*) provides independent assurance of the effectiveness of the Data Privacy Framework.

Data privacy and security

The policy objectives are to ensure that HAYAH adequately protects the personal and sensitive data of clients and other persons obtained during their business activities, to minimize the risk of HAYAH breaching applicable data privacy and protection laws and minimize the potential for penalties and damage to HAYAH's reputation.

HAYAH maintains complete transaction records for all local and international operations for as long as they are deemed relevant for the purposes for which they were made. Records of completed transactions may be retained in either hard copy and/or electronic format but must be kept in their original form.

HAYAH maintain backups for all records which are generally maintained in a location separate from the original records.

Storage

The data is stored in accordance with controls that provide adequate physical and information security arrangements for the protection of the data. These controls persist for the entirety of the retention period until the completion of the archiving and/or the destruction process.

Retention period

The retention period for records and backup copies and all other related documents and data is a minimum of ten (10) years for all lines of business except health insurance data, as of the end date of the activity or the working relation with the insured. The retention period of Health Insurance is twenty-five (25) years.

Exception

The Company maintain records beyond the normal statute of limitation periods when the records are subject to ongoing investigations or prosecution in court. In such cases, the retention period is two (2) years from the date of the final verdict or the resolution issuance.

Data privacy and security

Advancing sustainability through digital transformation

HAYAH launched a fully digitalized life insurance solution. The primary aim is to digitalize the operational setup not only as a value addition with customer focus but at the same time it goes well in line with our part of the contributions for environmental sustainability.

Life Protect aims to encourage customers to protect themselves and their loved ones from financial hardships that they might face in the event of death or illness. With a fully automated and API-capable platform, customers can now get a life protection cover in under two minutes, from the comfort of their home.

In continuation to its efforts towards digitalization, HAYAH also formed a partnership with Policybazaar, one of the Middle East's leading insurance comparison platforms, to enable UAE customers to buy a comprehensive term life insurance plan directly via Policybazaar's aggregator portal.

HAYAH incurred capital expenditure of AED 700K in addition to operational expenditure of AED 7.7 million in achieving these digitalization objectives and aims to further continue its efforts in developing its digitalization platform.

4

Community focus

Occupational health and safety

Prioritizing employee wellbeing and safe workplaces

HAYAH pays close attention to the security, health, and safety conditions of its personnel in all aspects of their work. We strive to create working conditions that promote work-life balance and employee well-being.

HAYAH is committed to the highest standards of health and safety in the workplace because we value and care for our workforce. Adherence to safe labor practices and laws regarding working hours is vital to ensure we protect the well-being of our people.

HAYAH takes pride in taking up and delivering on the following responsibilities:

- Always Work and behave safely.
- Keep the work area clean, healthy, and free from hazards that may cause accidents, emergencies, health problems, or safety hazards.
- Promptly addressing and reporting any safety or health problems, hazards, or risks.
- Support employees by being aware of its surroundings and all relevant procedures for managing incidents and emergencies, and alerting others to potential risks.

Social impact and CSR

Creating positive impact within our communities

HAYAH is committed to promoting social improvements in our communities, including human rights throughout the value chain.

Social Impact and CSR not only impact the society we live in and create a healthier community, but it has also become a part of HAYAH's business for success. HAYAH look to build a crucial ethical standard, in which we are passionate about fulfilling our public duty. Our actions must benefit the whole of society. In this way, HAYAH looks to create the right balance between economic growth and the well-being of society and the environment.

HAYAH is committed to nurturing and maintaining the health and wellness of the communities in which it operates. HAYAH looks to promote healthier, happier living, through its community investment initiatives.

Our employees initiate activities for causes that fall under our five focus areas: Environment, Health, Disability, Social Welfare, and Education.

We encourage our employees to give back to society through HAYAH Hearts in Action

5

Our employees

Diversity and equal opportunities

Fostering an inclusive and performance-driven culture

HAYAH believe that our employees' satisfaction is equally important as keeping our customers happy. We, therefore, promote a positive work environment and work towards employees' financial well-being & security, and continuous learning.

Considering that we are operating in the insurance sector which is relatively more dynamic in nature, we understand that we require a much higher level of skill and learning aptitude in our people while choosing and retaining them. We work towards a merit-based attractive work environment which serves as the foundation for building a solid corporate culture.

HAYAH is committed to equal opportunity in all aspects of employment and to fostering an environment where there are no “glass ceilings”.

HAYAH opposes all forms of unfair or unlawful discrimination and does not tolerate discrimination based on age, race, nationality, ethnic origin, gender, sexual orientation, gender identity or expression, religion, marital status, or disability. HAYAH's satisfied workforce reflects its strict adherence to a formal non-discrimination policy.

Our continued efforts are aimed to keep employee turnover at a low level to ensure uninterrupted business continuity. In, 2025 YoY turnover for FTEs remained at 23% while YoY turnover for contractor/consultants was zero.

Diversity and equal opportunities

Fostering an inclusive and performance-driven culture

Value creation is considered as pivotal at HAYAH; therefore, we are eager to develop a more diverse workforce which enhances value creation. In 2025, female employees made up 51% of the workforce. Female employees among senior management was 27% and 25% among middle management. The female employees in our staff level is at 42%.

HAYAH female composition

Emiratization

Developing national talent for sustainable growth

Emiratization is a national initiative, and HAYAH is keen to contribute to this initiative by developing UAE Nationals to achieve strong performance for today and sustainable talent for tomorrow. In 2025, UAE Nationals made up 20% of the workforce. Emiratization rate among senior management was 9%. The Emiratization rate in our female workforce is at 35%.

We aim to give preference to UAE nationals in our recruitment process wherever possible, and we look forward to further strengthen our workforce by growing a healthy Emiratization rate.

6

Environmental responsibility

Climate risk and energy management

Reducing environmental footprint through responsible operations

HAYAH is committed to managing its environmental footprint and safeguarding natural resources.

We align our operational goals and collaborate with employees and vendors to operate responsibly and encourage continuous improvements in our environmental footprint.

HAYAH continues its efforts in reducing the consumption of water and electricity by using energy efficient devices and encouraging our employees to bring positive sustainable workplace changes.

Simple communications with employees have contributed to HAYAH's energy saving initiatives. Considering a relatively smaller setup in UAE, HAYAH's resource requirements in terms of water and electricity is already at minimal level.

We prioritize the use of clean energy sources and we primarily use commercial power systems. Total energy consumption was only 35.7 MWh in 2025. Total water consumption was 92 cubic meter in 2025. Total Energy usage per FTE in 2025 is 0.8.

HAYAH's paper consumption is at minimal level owing to a relatively smaller setup in UAE which is further curtailed through usage of electronic invoicing. HAYAH's paper consumption in 2025 remained at 8 Kgs.

Thank you
